

Global Health Collaboratory

2020

5 formal international partners in **Costa Rica, Peru, Kenya, China, and Vietnam**

The **Global Health Collaboratory** develops global partnerships, expands non-credit education and “stackable” programs for learners worldwide, and grows international opportunities for Edson College students, staff and faculty. Their vision is to extend, expand and connect Edson College into spaces beyond ASU.

Spotlight: Service Learning Programs

Global Health Innovators Program

- **In partnership with Sichuan University**, introduces Chinese students to health innovation from leading experts in health care, research and health entrepreneurship.
- **82 SCU and ASU students** participants since 2019.

Study Abroad - Peru

- Exposes students to urban, rural and traditional health care settings through a **2-week immersion in Peru**.
- **62 student participants** since 2016.
