

Program Completion Outcomes
Arizona State University
Edson College of Nursing and Health Innovation

Baccalaureate Program Completion Outcomes

1. Combine theoretical knowledge from the sciences, humanities, and nursing as a foundation for critical thinking in professional nursing practice and demonstrate a comprehensive understanding of the relationship among client, health, environment, and nursing.
2. Design and deliver comprehensive therapeutic nursing care in partnership with individuals, families, groups, and communities, including those clients who are culturally diverse and/or vulnerable and at-risk for health disparities.
3. Provide safe, competent, innovative, and effective nursing care utilizing principle-based communication, informatics, technology, psychomotor, teaching, management, and therapeutic skills.
4. Generate own professional practice that focuses on health promotion, risk reduction, disease prevention, and illness and disease management from a holistic perspective.
5. Critically appraise and apply research findings and other evidence to deliver and promote evidence-based client care and evaluate subsequent outcomes.
6. Display behaviors consistent with the values and ethics of professional nursing.
7. Display personal and leadership characteristics appropriate for innovative designers, providers, managers, and coordinators of care.
8. Display responsibility and accountability for professional nursing practice.
9. Collaborate with nurses, other healthcare providers, and clients in the delivery of holistic care that is responsive to changing needs, sociopolitical, and global environmental factors.
10. Analyze current nursing and healthcare services, trends, and identify future healthcare needs to advocate for the client and the profession.
