I. EDSON COLLEGE OF NURSING AND HEALTH INNOVATION
OVERVIEW

The Edson College of Nursing and Health Innovation (ECONHI) is distinguished as a model for excellence and inspiration in nursing and interprofessional practice, education, and research to advance knowledge and innovative practice models, and new solutions to optimize the health and well-being of our diverse local, national and global communities. Learn more about the history of the college.

Mission & Goals

Deliver excellent, innovative, nationally-recognized nursing and interprofessional programs that are accessible, inclusive, and learner-centered

- Distinguish our academic programs through (a) impactful curricular development that reflects national health initiatives; (b) recruitment and retention of world class faculty; and (c) achievements of students and alumni.
- Broaden diverse student access, enrollment and retention in our academic community through (a) tailored marketing; (b) financial support; (c) student support services; and (d) state of the art learning experiences.

Build national reputation in innovative nursing and health related programs that significantly impact individuals and communities

- Create or refine and disseminate teaching strategies that are student-centered, adaptive, and interactive.
- Develop program-specific criteria that advance academic excellence leading to national recognition of ECONHI.
- Establish collaborative networks to foster innovative programs that impact local, national, and global health.

Establish ASU as a global center for interdisciplinary research, discovery and development by 2020

- Conduct innovative science and participate in and lead interdisciplinary research teams.
- Contribute to the global community of scholars to inform the scientific knowledge base and influence health outcomes.
- Provide professional and research mentorship to develop the next generation of scientists who positively affect health outcomes.

Enhance our local impact and social embeddedness

- Increase student and faculty collaboration within the community that is reciprocal, beneficial and sustainable to improve health outcomes.
- Engage community members and leaders in designing relevant health related activities and programs responsive to the needs of diverse populations.
Accreditation

The baccalaureate degree in nursing, master's degree in nursing, and Doctor of Nursing Practice at the Arizona State University Edson College of Nursing and Health Innovation are accredited by the Commission on Collegiate Nursing Education (http://www.aacn.nche.edu/ccne-accreditation) through June 30, 2024. All programs are also approved by the Arizona State Board of Nursing.

II. PROGRAM FOUNDATION

Purpose
The Edson College of Nursing and Health Innovation embraces the philosophy and purpose of Arizona State University, which is committed to the exchange of knowledge and the pursuit of wisdom within an atmosphere of intellectual honesty and freedom. Arizona State University and the Edson College of Nursing and Health Innovation seek to foster excellence in scholarship, research, service and practice.

The educational programs of the Edson College of Nursing and Health Innovation are dedicated to providing students with the opportunity to acquire the requisite knowledge, skills, attitudes and values necessary to become professional nurses and nurse leaders who are capable practitioners prepared to respond to changing healthcare needs and patterns of healthcare delivery. The faculty of the Edson College of Nursing and Health Innovation believe that: the central concepts of nursing education and nursing practice are client, environment, health and nursing; and adhere to the following definitions and assumptions about these concepts,

Client
The client is an individual, family, population group, or community with identifiable health and illness behaviors. The client is conceptualized from a holistic and developmental perspective. Clients are engaged in continuous, dynamic interaction in the increasingly complex and diverse environment. Clients have a right to determine and to participate actively in the pursuit of their own health goals. Clients should have the opportunity to achieve and maintain the highest possible level of health.

Environment
The environment includes the internal and external context of individuals, families, population groups, and communities. The internal environment may include physiological and psychological variables as well as the client’s unique interpretation of interpersonal, spiritual, social, and cultural factors. The external environment consists of all the physical, biological, sociopsychological, and cultural factors that may impinge upon clients and their health. In addition, the external environment includes socioeconomic, political, cultural, technological values, health behaviors and goals.
Health
Health is a dynamic process that reflects the interaction between client's internal and external environments. Optimal wellness is the highest state of health, the ideal in which the client moves at varying rates. Such wellness results from positive interaction between client and environment. Illness is a state of health in which negative or unsuccessful interaction between the client and environment has occurred. Wellness exists in illness and is the goal of nursing to promote and restore wellness.

Nursing
Nursing is a humanistic discipline that is both art and science. The purpose of nursing is to promote wellness and care for those who are ill. The discipline of nursing encompasses science, humanities, ethics, values, and the heritage of nursing; defined by the relationships and interactions among the concepts of client, environment and health. The aim of a professional nursing practice is to enhance the quality of life for clients. Nursing practice is based on an understanding of client interactions and environment in relation to health. Improving and expanding the theoretical base of nursing practice is achieved through research and creative activity.

The unifying concept of nursing is interaction. Linked together with interaction, client, environment, health and nursing are all viewed as synergistically acting and reacting together in a dynamic, mutually influencing relationship.

III. Current Program Descriptions and Outcomes of the Master of Science in Nursing Pathways

Responsive to the continuing national and global need for nurses prepared at the graduate level, the Edson College of Nursing and Health Innovation currently offers three pathways to the Master of Science in Nursing. Students may select the Master of Science in Nursing with a focus on leadership in improving healthcare quality and safety outcomes, a Master of Science in Nursing with a pathway in Nursing Education (NED), or a Master of Science Entry into Professional Nursing (MEPN). These pathways are offered online with the exception of the Master of Science Entry into Professional Nursing, which is offered via a blended delivery option. For all degree paths, selected practicum-oriented courses require on site immersion experiences.

Master of Science in Nursing
The Master of Science with a major in Nursing (MSN) is a post baccalaureate degree in nursing planned to meet the requirements for a Master of Science within Arizona State University and the professional nursing requirements outlined in the American Association of Colleges of Nursing (AACN) Essentials for Masters Education in Nursing. Courses are designed to emphasize the importance of innovation in the improvement of health outcomes and reduced health care costs. Graduates are prepared with a foundation to lead interprofessional teams that design, deliver and evaluate coordinated safety and quality improvement efforts across complex and diverse practice settings in healthcare
environments. The plan of study consists of advanced level courses which establish a foundation for leadership that serve as a pathway to doctoral education in Nursing and career enhancement.

**Upon completion of this Pathway the graduate will be able to:**

1. Examine theoretical and scientific underpinnings from the sciences, humanities, public health, policy, education, and organizational sciences to provide a knowledge base for ethical practice and leadership in the art and science of nursing across diverse settings. *(AACN I, II, VI) Level IV Analyzing*
2. Appraise safety and quality principles, including innovative methods and performance measures to improve health care outcomes across diverse settings. *(AACN III) Level V Evaluating*
3. Evaluate evidence-based practice and leadership in direct and indirect clinical practice with patients, populations, information and health care delivery systems to improve health care outcomes. *(AACN IV, V, IX) Level V Evaluating*
4. Build interprofessional teams to design, implement and evaluate innovative clinical interventions and use of informatics and healthcare technologies that are patient-centered, minimize risk and improve outcomes across diverse settings. *(AACN V, VII and VIII, IPEC 4) Level VI Creating*
5. Model clear, coherent, professional and respectful leadership in communication with patients, families and health care professionals. *(AACN IX, IPEC 3) Level III Applying*

**Master of Science in Nursing, Education Concentration**

The Master of Science in Nursing with a concentration in Nursing Education (NED) builds on the MS in Nursing with a focus on education. This pathway is designed to prepare nurses as educators with the ability to function in increasingly complex, and highly technological academic and health environments with culturally diverse populations. The intent is to foster scholarship, creativity and innovation as a foundation for leadership roles in academic and practice settings. The plan of study consists of advanced-level courses in nursing practice and education that can be used to provide a transition to doctoral level study, depending on career goals. At the completion of the program, graduates with three years of professional practice experience in any area of nursing are eligible to take the National League for Nursing examination to become a Certified Nurse Educator (CNE).

**In addition to the MSN Program outcomes above, the NED pathway has the following outcomes:**

1. Utilize theory and research that provide a knowledge base for innovation in nursing education science and art. *(AACN I, VI) Level III Applying NLN*
2. Design, implement and evaluate innovative learner-centered approaches that consider culture, lifestyle, age, experience, learning styles, learning goals, setting and current technology in the context of providing nursing and health care. *(AACN I) Level V Evaluating and Level VI Creating*
3. Plan, produce and evaluate educational programs that consider professional, regulatory, ethical and legal standards in academic and practice settings. *(AACN II, VI) Level III Applying and Level V Evaluating*
4. Adapt best practices in the delivery of innovative learner-centered education and principles of leadership and educational change in academic and practice settings. \textit{(AACN III, IX) Level VI}

**Master of Science Entry into Professional Nursing**

The Master of Science Entry into Professional Nursing (MEPN) is a pathway to master's education designed to meet the requirements for the MS Degree within Arizona State University, and the professional requirements of the American Association of Colleges of Nursing (AACN) Essentials for Baccalaureate Education in Nursing and Masters Education in Nursing. The Master of Science Entry into Nursing Practice provides a pathway to master's education for students who hold a baccalaureate degree in another discipline. This plan of study builds on the students' prior baccalaureate education, maximizing the current prelicensure Bachelor of Science in nursing and Master of Science in nursing programs. This program pathway is delivered using a variety of face to face, hybrid and online delivery mechanisms. Graduates are eligible to take the National Council for Licensure Examination for Registered Nurses (NCLEX-RN®).

In addition to the MSN program outcomes above, the Master's Entry into Nursing pathway has the following outcomes:
1. Create innovative systems for leadership in implementing and evaluating nursing and health care information. \textit{(AACN V) Level VI Creating}
2. Design systems for patient safety, risk reduction, quality measurement and performance improvement. \textit{(AACN III, IV, V) Level VI Creating}
3. Develop interprofessional care coordination and patient quality and safety innovation leadership teams at the unit, organizational or systems levels. \textit{(AACN V, IPEC IV) Level VI Creating}.

**Nurse Educator Graduate Certificate Program**

The Nurse Educator Graduate Certificate Program (NED certificate) is a non-degree program designed for experienced health care professionals who want to develop the knowledge and skills needed to practice as a Nurse Educator in academia or staff development. The certificate program includes 15 credit hours (five core courses). The NED certificate program is delivered using a hybrid format that optimized in person and iCourse delivery methods. Students may enroll in the certificate program full or part time.

This 15-credit hour graduate certificate in Nursing Education prepares post-master's registered nurses or those enrolled in doctoral programs and other health professionals to teach in academic or practice settings.

Courses include:
- NUR 670: Curriculum Development in Academic and Practice Settings
- NUR 671: Teaching in academic and Practice Settings
- NUR 672: Design and Delivery of Mediated Instruction
- NUR 673: Producing and Evaluating Programs for Academic and Practice Settings
- NUR 579: Teaching Practicum (135-hour practicum)
IV. PROGRAM APPLICATION AND ADMISSION

Application
For application requirements and process, see https://nursingandhealth.asu.edu/degree-programs/graduate. The recruitment team helps guide applicants through the application process and answers general questions about the program. A completed application must be submitted by March 1st. The online application form is available at: https://students.asu.edu/graduate/apply.

International Students
Students residing in the U.S. on a valid visa or planning to attend ASU on an F-1 or J-1 visa, must also meet additional application requirements as identified on page 12 of this Handbook. International F-1 and J-1 students are required to maintain full-time enrollment status.

Admission
The MS Program Director will submit recommendations regarding admission decisions to ASU Graduate College; only the Dean of the Graduate College can make formal offers of admission. The Graduate College notifies all applicants of the admission decision.

Advisement
At the time of admission, the MS Program Director assists students to develop their academic plan and provides guidance related to the successful completion of the Master's degree. The Master's student will also be assigned a Faculty Mentor to assist with the successful completion of the required Master's Applied Project.

Enrollment
Students are responsible for enrollment in courses each semester, following the program of study for their concentration. Enrollment is completed through MyASU.

The University's Registrar's Office will verify student enrollment each semester according to the general guidelines found: https://students.asu.edu/enrollment-verification

How to Register for Classes: https://students.asu.edu/howtoregister

Registrar's website for the most up to date policies on Registration, Grades & Records, and Residency: http://students.asu.edu/registration.

Academic Calendar
Academic Calendar for all Registration and Withdrawal deadlines: http://students.asu.edu/academic-calendar.

Financial Assistance
Financial assistance for graduate study is available in the form of scholarships, traineeships, assistantships, and loans. Scholarships, traineeships, and assistantships are awarded to students with regular admission status and satisfactory academic standing. In
addition to information on financial assistance presented in this section, students are advised to consult the Financial Aid and Scholarship Services: https://students.asu.edu/financialaid

**Scholarships**
Several scholarships are awarded by the Edson College of Nursing and Health Innovation during the academic year. To be considered for an award, students must complete the Scholarship Application Form: http://nursingandhealth.asu.edu/scholarships/index.htm.

Many financial assistance opportunities from the ASU Graduate College are available to the student. This site provides all the tools and resources the student needs to view the types of aid available for students.

**Required Minimal Technical Skills**
Students are required to be computer literate and have basic keyboarding skills. Students are expected to have email-access, and to regularly access email through individual accounts established through ASU at the time of enrollment in the program. It is expected that the student will be able to do at least the following tasks on a computer:

- Use the Canvas™ Learning Management System
- Use ASU email
- Create and submit files in commonly used word processing program formats
- Copy and paste text
- Download and install software
- Use spreadsheet programs
- Use presentation and graphic programs
- Specific courses may use additional software

**Background Clearance, Drug Screening and Immunization Requirements**
Prior to the formal offer of admission, all students given conditional acceptance will be required to complete a background clearance and drug screening (Appendix A). In addition, all students are required to meet immunization requirements and submit proof of health insurance prior to registering for any courses. All four processes are done through Castle Branch Corporation (https://www.castlebranch.com/). Students are responsible for costs associated with these requirements. **No other forms of background clearance or drug screening are accepted. Additionally, students are responsible for submitting updated documents to Castle Branch throughout their program as requirements expire. Castle Branch will notify the student of any deficiencies but it is the student’s responsibility to maintain these requirements.**

All students are required to have health insurance at all times while enrolled in the program. Proof of insurance (i.e. current health insurance card or proof of coverage) must be submitted to Castle branch at the time of admission. Renewal dates will be set for one year from the date issued or the date reviewed. It is the student’s responsibility for maintaining health insurance coverage and submitting updated documents. The student is responsible for all injury associated costs while at a practicum site.
• All students (other than MEPN students) are required to have an unencumbered Arizona RN license or an unencumbered compact state RN license as mandated by the Arizona State Board of Nursing. The compact state license must indicate “multi-state” on the license. If it does not say “multi-state” the student is required to obtain an Arizona RN license. The RN license must remain unencumbered throughout the student’s enrollment in any nursing program.

• International nursing students are eligible for an Arizona registered nurse license and may enroll in the MS Program if the following are met:
  a. Verification of acceptable practice in home country.
  b. Passage of NCLEX.
  c. Demonstrated English language competence. Refer to the following link: http://graduate.asu.edu/faculty_staff/policies and select the ASU Graduate Policies and Procedures pdf.
     Exception: students with Test of English as a Foreign Language (TOEFL) scores below accepted scores who demonstrated adequate writing and speaking English skills will be deemed acceptable if approved by supporting faculty mentor or MS Program Director.
  d. Absolute discharge from a sentence for any or all felony convictions.
     The Edson College of Nursing and Health Innovation shall document the student’s standing as proof of lawful presence.

V. UNIVERSITY POLICIES

ASU Graduate College
The MS program office is responsible for upholding the policies and procedures set forth by the ASU Graduate College. Students are held to the minimum requirements of the Graduate College as well as any additional requirements set forth by the Edson College of Nursing and Health Innovation. Graduate College Policies and Procedures: https://graduate.asu.edu/policies-procedures

Disability Resource Center
The Disability Resource Center (DRC) is the central location for establishing and obtaining services and accommodations for qualified students with disabilities: http://www.asu.edu/studentaffairs/ed/drc/

Title IX
Title IX is a federal law that provides that no person be excluded on the basis of sex from participation in, be denied benefits of, or be subjected to discrimination under any education program or activity. Both Title IX and university policy make clear that sexual violence and harassment based on sex is prohibited. An individual who believes they have been subjected to sexual violence or harassed on the basis of sex can seek support, including counseling and academic support, from the university. If you or someone you know has been harassed on the basis of sex or sexually assaulted, you can find information and resources at https://sexualviolenceprevention.asu.edu/
Academic and Professional Integrity

The highest standards of academic integrity [https://provost.asu.edu/index.php?q=academicintegrity](https://provost.asu.edu/index.php?q=academicintegrity) and compliance with the university’s Student Code of Conduct are expected of all graduate students in academic coursework and research activities. The failure of any graduate student to uphold these standards may result in serious consequences including suspension or expulsion from the university and/or other sanctions as specified in the academic integrity policies of individual colleges as well as the university.

Violations of academic integrity include, but are not limited to: cheating, fabrication of data, tampering, plagiarism, or aiding and/or facilitating such activities. At the graduate level, it is expected that students are familiar with these issues and that each student assumes personal responsibility in their work.

Students should refer to the ABOR Student Code of Conduct, the Academic Integrity and applicable laws. Matters that violate the ABOR Student Code or ASU Academic Integrity Policy must be appealed as provided for in those policies.

Professional Standards of Conduct

Professional Standards of Conduct for participation are based on the philosophy and organizing framework of the MS Program and mirror ANA’s Code of Ethics ([http://nursingworld.org/MainMenuCategories/EthicsStandards/CodeofEthicsforNurses](http://nursingworld.org/MainMenuCategories/EthicsStandards/CodeofEthicsforNurses)). Our framework recognizes the importance of reciprocal connections between people and environments and the influence of the social context, including individual, interpersonal, organizational, and community variables, on human behavior. Accordingly, we aim to foster a social context that provides a safe, respectful learning environment and promotes development as a scholarly citizen.

In addition to academic requirements, students must comport themselves according to the “Satisfactory Professional Conduct” level of the Professional Standards of Conduct rubric (Appendix B). Performance at the “Conduct Requiring Improvement” or “Unsatisfactory Professional Conduct” level may lead to an Academic/Professional Improvement Plan. Egregious violations may result in a recommendation that the Graduate College dismiss the student from the program.

In addition to the Professional Standards of Conduct for the MS Program, students must follow internal standards set forth in course syllabi and the MS Program Handbook, along with external requirements found in the ASU Student Code of Conduct, [https://eoss.asu.edu/dos/srr/codeofconduct](https://eoss.asu.edu/dos/srr/codeofconduct), university regulations concerning academic, scientific, or student conduct; and Federal regulations regarding the conduct of research with human subjects, as administered by the Institutional Review Board at ASU. Violations of these external standards will be adjudicated through a separate university process.
Disruptive Classroom Behavior
Arizona State University has several policies which are potentially applicable to disruptive student situations. These are:

1. Disruptive Student Protocol STA 104-02
2. Student Code of Conduct ABOR 5-308 (and 5-303)
   [https://azregents.asu.edu/rrc/Policy%20Manual/5-308-Student%20Code%20of%20Conduct.pdf](https://azregents.asu.edu/rrc/Policy%20Manual/5-308-Student%20Code%20of%20Conduct.pdf)
3. Instructor Withdrawal of Student for Disruptive Classroom Behavior
4. Involuntary Withdrawal Policy (SAC)

Virtually all actions taken with respect to behavior need to have a hearing process (or some opportunity for a student to give a response to allegations made or actions to be taken where removal from a class, or grade appeal process, or suspension or expulsion from school is mandated). The Student Code of Conduct provides for the Dean of Students to act when a complaint is filed with the Educational Outreach & Student Services (EOSS), and for a hearing (informal) to be held where the student is given an opportunity to respond. If expulsion or suspension is the recommended sanction, the student does have an opportunity to have a review by the University Hearing Board. In an emergency, the professor, RA/TA, or a student acting on that person’s behalf will contact one of the following:

1. ASU Counseling Services (480) 965-6146 (Tempe campus)
   (602) 496-1155 (Downtown campus)
2. ASU Health Services (480) 965-3349
3. EMPACT Suicide Prevention Center (480) 784-1514
4. Dean of Students (602) 496-4357
5. DPS @ 911 or non-emergency (602) 496-3456

VI. PROGRAM PROGRESSION

Students are responsible for familiarizing themselves with all university and graduate policies and procedures. The most current pdf version of the Graduate Policies can be found at: [https://graduate.asu.edu/policies-procedures](https://graduate.asu.edu/policies-procedures)

Continuous Enrollment
Once admitted to a graduate degree program, students must be registered for a minimum of one credit hour during all phases of their graduate education, including the term in which they graduate. This includes periods when students are engaged in any way utilizing university resources, facilities or faculty time. This credit must appear on the Plan of Study
and must be an appropriate graduate-level course (e.g. 692, or 595 Continuing Registration). Please see Graduate policies regarding registration and continuous enrollment: https://graduate.asu.edu/policies-procedures.

Students enrolled in the non-degree Certificate programs are not required to be registered for a minimum of one credit hour during all phases of their graduate education.

**Voluntary Withdrawal: Courses, Graduate Degree Program, or ASU**

Types of withdrawals and procedures can be found at: https://students.asu.edu/drop-add.

**Involuntary Withdrawal by the Graduate College**

Please refer to Graduate Policies: https://graduate.asu.edu/policies-procedures.

**Medical/Compassionate Withdrawal:**

The Dean’s representative for the Edson College of Nursing and Health Innovation will advise students on the process of medical/compassionate withdrawal. Contact the ECONHI Student Services office at 602-496-0888 for more information.

**Immersion Sessions**

Courses in the MS program concentrations use a hybrid delivery method that consists of 1-3 immersions per semester with a duration of 2-3 days at a time depending on the course and the semester of the student’s program. Additional days and immersion sessions may be required for some courses. Individual course syllabi will outline attendance requirements. Students should check with their course instructor for specific requirements for each course.

**Plan of Study**

The MS in Nursing degree requires a minimum of 35 credit hours of graduate coursework. The Post Master’s Certificate in Nursing Education requires a minimum of 15 credits of graduate coursework. Questions regarding transfer credit or courses offered on the plan of study can be directed to the MS Program Director.

**Interactive Plan of Study (iPOS)**

The Plan of Study (iPOS) functions as a contract between the student, the MS Program Director, the Concentration Coordinator, and the Graduate College. The iPOS contains certain degree requirements such as coursework and the Program Director’s name which must be included before it can be approved. The MS Program Director is the primary contact regarding iPOS and degree requirements.

All students must submit an iPOS before completing 50 percent of the credit hours required for the degree, generally after the fall semester of their second year for MS program students.

For step-by-step instructions on completing and submitting the student’s iPOS, please refer to the iPOS student training manual: https://graduate.asu.edu/completing-your-degree#tabs-0-content_main-7
Degree Minimum Credit Hours
Please see the Graduate policies regarding degree minimum credit hours: https://graduate.asu.edu/policies-procedures.

Degree Maximum Time Limit
Please see the Graduate policies regarding degree maximum time limit: https://graduate.asu.edu/policies-procedures.

Academic Progression Requirements
All students are expected to make systematic progress toward completion of their degree. This progress includes satisfying the conditions listed under Academic Progression Requirements, Professional Standards of Conduct, and according to Graduate policies: https://graduate.asu.edu/policies-procedures

Progression Requirements

A. A student who has been admitted to the MS program or relevant certificate option:
   1. Must maintain a 3.0 (B) or higher grade point average (GPA) in all work taken for graduate credit (courses numbered 500 or higher).
   2. Must earn a grade of B or better in all required courses (including required electives) in the student’s approved program of study.
   3.
B. A student will be placed on academic probation or recommended for withdrawal, if one or more of the following apply:
   1. The student’s GPA falls below 3.0.
   2. The student receives a grade below B or 80% in any course on the approved program of study.
   3. A student who is asked to leave a clinical site for unprofessional conduct, perceived impairment reasonably suspected to be drug or alcohol related, (Appendix C Substance Abuse Policy) or unsafe practice (per the American Nurses Association Code of Ethics for Nurses [http://nursingworld.org/MainMenuCategories/EthicsStandards/CodeofEthicsforNurses] and/or Arizona Board of Nursing Standards of Conduct [https://www.azbn.gov/Documents/npa/RULES.pdf specifically Standards Related to Registered Nursing Scope of Practice] and/or ECONHI's Safe Practices in Clinical Settings (Appendix D)) will leave their clinical site immediately and will not return or be allowed to move to another clinical site that semester and will receive a grade of “E” in that course.
   4. Students who have been asked to leave a clinical site for unprofessional conduct or unsafe clinical practice will be placed on academic probation. The concentration coordinator will notify the MS Program Director and the student will be notified in writing of the academic probation and the conditions required to discontinue the academic probation by the Director.
   5. If a student has their RN license to practice encumbered or suspended while a student in the program, they must notify the MS Program Director within 48
hours and must immediately stop attending all courses. **All graduate nursing students must have an active, unencumbered RN license at ALL times during their program of study.** **Loss of the RN license is grounds for immediate recommendation to the Graduate College for withdrawal from the program.**

7. Periods of absence during a semester without the endorsement of the student’s graduate committee or advisor. This request must be filed and approved prior to the first day of class in the semester of anticipated leave.

8. Seriously compromising the relations of the Program with the public.

9. Breaches of ethical judgment or professional responsibility.

10. Serious instances of personality or character traits inappropriate for the professional roles for which the student is attempting to prepare.

11. Any student who violates the academic integrity policy of the university may be recommended for withdrawal from their program of study. Violations of academic integrity include, but are not limited to cheating, fabrication, tampering, plagiarism, or facilitating such activities.

C. Appeals:
Students who have been recommended for withdrawal from any of the MS in Nursing pathways can appeal this decision in writing to the Edson College of Nursing and Health Innovation, MS Program Director. If the recommendation to withdraw is upheld the student can appeal the decision to the dean’s office in the Edson College of Nursing and Health Innovation and as a final step, to the Graduate College.

D. Funding:
Students making unsatisfactory progress and/or on academic probation are not eligible for traineeship funding or assistantship positions.

**Progression restrictions** for students placed on academic probation may prevent the student from progressing in their program of study with their class cohort. Graduate courses in which a grade of less than a B must be repeated in the next regular academic semester during which the course is offered. Graduate courses may be repeated only once.

**Grades**
Faculty teaching graduate courses may choose to use either the following 10 point scale or the plus/minus scale when grading graduate courses. The scale that is chosen will be listed in the syllabus and those are the grades that will be given to the students. All A + grades will be converted by ASU to a 4.0 in the system for calculating the cumulative GPA, per ASU policy. Edson College of Nursing and Health Innovation graduate program grading guidelines allow for a B- in individual course/assignments (C+ or lower is not allowed on the plan of study IPOS). An overall GPA of 3.0 is required in the graduate certificate, masters, and doctoral programs. Students whose overall GPA falls below 3.0 are considered on probation and in danger of failing their program.
Regular grading scale

<td>Incomplete</td>
<td>Does not count toward GPA and an incomplete contract must be filed and grade must be removed from POS within 1 year or converts to permanent “I” on transcript</td>
</tr>
</tbody>
</table>

A grade of “W” is given whenever a student officially withdraws from a course.

**Grade Point Averages**

Students must maintain a minimum 3.0 grade point average (GPA) to maintain satisfactory academic progress and to graduate. Please see Graduate policies regarding grade point averages: [https://graduate.asu.edu/policies-procedures](https://graduate.asu.edu/policies-procedures). If more than one failure occurs, students may be withdrawn from the MS program.

**Incomplete Grades**

Students must request a grade of Incomplete at least two weeks prior to the last day of the semester. MS students are required to have successfully completed 80% of their
coursework (with a B or better) prior to requesting a grade of incomplete. A grade of “I” can only be given when a student, who is doing otherwise acceptable work, is unable to complete a course (e.g., final exam or term paper) because of illness or other conditions beyond the student’s control however it is entirely up to the instructor to approve the Incomplete. The student and instructor must complete a Request for Grade of Incomplete form.

The exact time frame for completion is negotiated between student and faculty however, students who receive a grade of "I" in any course must complete course requirements within one calendar year of the scheduled course and may NOT have longer than one calendar year. If a regular grade is not assigned within the calendar year, the “I” becomes permanent part of the transcript. To repeat the course for credit students must re-register and pay the required fees. The grade for the repeated course will appear on the transcript but will not replace the permanent “I.”

To request a grade of incomplete, students must complete the following steps:
1. Obtain the Request for Grade of Incomplete form available at [http://students.asu.edu/forms/incomplete-grade-request](http://students.asu.edu/forms/incomplete-grade-request) and request the grade of incomplete to the faculty of the course.
2. Faculty will submit the form to the MS Program Director for approval. Once approval has been granted, faculty will enter a grade of “I” for the student.
3. Faculty will notify the MS Program Director upon fulfillment of the contract.
4. Faculty will verify that the grade correction was entered and the “I” removed.

Petitions
Some requests apply only to policies of the Edson College of Nursing and Health Innovation while others also require the approval of the Graduate College. Students should contact the MS Program Director to determine what petitions must be submitted for their particular request.

Petitions to the Graduate College
Please refer to the Graduate College website for the most current information: [https://graduate.asu.edu/policies-procedures](https://graduate.asu.edu/policies-procedures).

Petitions to the Edson College of Nursing and Health Innovation (ECONHI)
Please follow these instructions for submitting a petition to the ECONHI. Use one Petition to Standards Committee Form for each request. Right click to save PDF to the student’s computer: [https://nursingandhealth.asu.edu/student-life/current-students](https://nursingandhealth.asu.edu/student-life/current-students)

Submit the completed form with attached documentation to the MS Program Director for submission to the Standards Committee. If the petition is incomplete or unclear it will be returned to the student. Students will be notified in writing within one week of the committee meeting of the action taken on their petition. The Chair of the Standards committee will designate someone to contact the student. Results will NOT be provided over the phone.
Academic Grievance
Students’ academic grievance will be referred to the Academic Grievance Committee as outlined in the ECONHI Grievance policy in Appendix E.

Clinical Placement Policy
Students enrolled in the MS in Nursing pathways are required to complete a 90 hour graduate clinical practicum. Note: Students in the MEPN program will have undergraduate clinical as well that is not discussed here. The clinical practicum is a precepted practicum experience appropriate to master’s level nursing and health care professional practice. The clinical practicums are designed to build on core knowledge learned in the concentration curriculums and compliment the Role-Focused practicums which may or may not occur in the clinical setting. The practicums are tailored to student interests, professional goals, and population area of interest.

Graduate Clinical Practicums
- Preceptors must be an RN with a Master’s Degree or above and have at least 1 year of clinical experience and a license in good standing. (https://www.azbn.gov/Documents/npa/RULES.pdf Section R4-19-502.B.6)
- The student’s clinical practicum will be arranged in collaboration with the MS Coordinator. The Coordinator will determine if the site and preceptor are appropriate to accomplish clinical goals.
- Rural Health and experiences with medically underserved populations are recommended and encouraged.
- Students should expect to travel within Maricopa County, and in some cases surrounding counties, to complete their assigned clinical practicum.

Students residing outside of the Phoenix Metro area
- It is the responsibility of students who reside outside of the Phoenix Metro area to identify preceptors and sites willing to accommodate clinical rotations. Please contact the MS Coordinator for further information and next steps. (See section regarding Student Placement Agreements/Academic Affiliation Agreements below).
- If a clinical site cannot be arranged in the student’s location, a site will be provided in Maricopa County.
- The MS program office is not responsible for guaranteeing a clinical placement site for any student outside of the Phoenix metro area.
- **Students must have a current, unencumbered Arizona RN license or an unencumbered RN license from a compact state that indicates multistate privileges.**
- **Students must have a current, unencumbered RN license in the state in which they are attending a clinical practicum.**
- Note that there are several states where ASU’s MS program is not currently offered. Please contact the concentration coordinator for more information.
Clinical Practicum Hours Guidelines

- Required practicum hours must be completed during the semester dates only.
- Student’s clinical schedules must accommodate the preceptor’s scheduling preferences.
- Students must notify their preceptor when they are absent from a scheduled clinical day regardless of the reason.
- Student schedules must be able to accommodate 2-3 days per week each semester.
- Students are expected to begin their clinical assignment at the start of the semester and distribute their clinical hours over the duration of the semester.
- Students must notify their Concentration Coordinator regarding any issues related to their preceptor, patient interactions or site (conflict with preceptor, sexual harassment, safety issues, etc.) immediately.

Clinical Practicum Preparation and Onboarding

- Before beginning the clinical practicum, the student will be notified of any “onboarding and/or training” required to attend before the start of the clinical practicum.
- Onboarding may include the submission of immunization documentation, TB status, background check, licenses, ID, additional drug testing, orientation, modular training and/or EMR training (See Castle Branch requirements below).
- The Concentration Coordinator will facilitate documentation. In some instances, the student will be required to send their own documentation to the clinical site.
- Students are to anticipate that onboarding could involve substantial time spent in orientation and/or modular training.
- Some agencies utilize an onboarding system (myClinicalExchange) for students rotating in their facility; if a fee is incurred, it is the student’s responsibility. Contact the Concentration Coordinator for the current cost.
- Any additional costs associated with clinical placements are the responsibility of the student.
- Students are to start the onboarding process immediately upon confirmation of the clinical site. Students are responsible for following the instructions regarding onboarding. A delay in following instructions or not following instructions will place a student at risk for a delay in their course progression.

Dress Code for Clinical Practicums

Students are expected to dress professionally. Business or business casual is required. No open-toe shoes. Apparel and person are expected to be clean without the presence of colognes and perfumes. Minimal jewelry is permitted. Tattoos should not be visible. Each student is expected to wear a clean pressed lab coat (except in settings where lab coats are discouraged by the student’s preceptor) with a badge identifying him or her as a MS student from ASU. Individual agencies may have dress codes which supersede ASU’s dress code to which students must adhere.
RN License
- Students are responsible for adhering to all rules and laws regarding RN licensing and multistate privileges.
  - Please refer to your State Board of Nursing website for rules and laws.
- Students must have a current, unencumbered Arizona RN license or an unencumbered RN license from a compact state that indicates multistate privileges.
- Students must have a current, unencumbered RN license in the state in which they are attending a clinical practicum.
  
  Please see the National Council of State Boards of Nursing website for complete compact state rules. [https://www.ncsbn.org/nurse-licensure-compact.htm](https://www.ncsbn.org/nurse-licensure-compact.htm)
- Students are obligated to self-report criminal charges to the professional licensing boards within ten working days after a charge is filed.
  - Arizona State Board of Nursing: [https://www.azbn.gov/discipline-complaints/reporting-criminal-charges](https://www.azbn.gov/discipline-complaints/reporting-criminal-charges)
- Students are required to report criminal charges and any restrictions to their RN license to the MS Program Director within 48 hours of incident.

Castle Branch
- Students are required to be compliant with Castle Branch requirements.
- If a student is not current in Castle Branch, he/she MAY NOT ATTEND THEIR CLINICAL PRACTICUM UNTIL THEY ARE CURRENT. Students are responsible for knowing their status in Castle Branch.

Student Placement Agreements/Academic Affiliation Agreements
- Student Placement Agreements/Academic Affiliation Agreements are required to be in place, before a student may begin a clinical practicum. Agreements can take 4 weeks to 12 months to execute.
- Occasionally, ASU Edson College of Nursing and Health Innovation is unable to agree to terms of an Agreement and the Agreement is not able to be executed.
- ASU's MS program has existing Agreements with many Phoenix area clinical sites. Please check with the Concentration Coordinator if you have any questions.

Change of Residence (out of state or out of current area)
- Students are required to report any change in address to the Concentration Coordinator immediately. Failure to do so may result in a delay in the student’s course progression, due to clinical placement issues.
- If moving out of area or out of state, please refer to the guideline above regarding out of area and out of state student clinical placement.
- Note that there are several states where ASU’s MS program is not currently offered. Please contact the Concentration Coordinator for more information or see ASU’s webpage: [http://asuonline.asu.edu/about-us/state-regulatory-authorizations](http://asuonline.asu.edu/about-us/state-regulatory-authorizations)
During clinical practicums, students are responsible for understanding and complying with the following ECONHI policies:

Appendix G – Blood Borne Pathogens Policies
Appendix H – Unusual Occurrence Policy
Appendix I – Reporting and Investigating Procedure

VII. MS PROGRAM COMPLETION

The MS Applied Project will demonstrate student achievement of attaining knowledge and practice application of the Essentials of Masters Education in Nursing as developed by the American Association of Colleges of Nursing (AACN) (Appendix J).

MS Applied Project
The MS in Nursing degree culminates in the MS Applied Project. This culminating academic experience is designed for graduate students to enhance their ability to synthesize theory and research about educational principles underlying the art and science of nursing and inter-professional education in academic and practice settings. Students complete a comprehensive review of literature leading to formulation of a purpose statement that addresses a concentration related issue or topic, and is developed as an applied project related to best practices in the specific concentration. Students will be mentored by a 2-member supervisory committee (one of whom is a designated chair) to evaluate evidence that contributes to innovation or best practice. The completed project will be submitted in written form and reviewed during oral presentation to the supervisory committee. Specific instructions for completion of the project can be reviewed in the NUR 593 Course Syllabus.

Responsibilities of MS Program Participants
Responsibilities of Student:

- Represent the Edson College of Nursing and Health Innovation in a professional manner
- Respect the culture and mission of the clinical practicum site
- Submit the clinical practicum information form to the Concentration Coordinator within the required timeframe so that affiliation agreements with the agencies can be confirmed or established (as needed)
- Complete Evaluation of Clinical Practicum Site
- Consult with faculty mentor at critical points in development of the applied project and as needed
- Adhere to Human Subjects regulations and HIPAA regulations.
- Meet program deadlines and outcomes established for each semester
- Submit iPOS and graduation documents to the University Graduate office and ECONHI Graduate office by the due dates
Responsibilities of MS Program Faculty (i.e. Program Director, Concentration Coordinators, Clinical Practicum Faculty, all MS Program Faculty)

Responsibilities of Faculty:
- Represent the Edson College of Nursing and Health Innovation in a professional manner (all faculty)
- Respect the culture and mission of the clinical practicum site (all faculty)
- Ensure all clinical practicum sites have the required affiliation agreement and if needed, initiate a new agreement (Concentration Coordinator)
- Complete Evaluation of Clinical Practicum Site (Clinical Practicum Faculty, Concentration Coordinator)
- Consult with faculty mentor at critical points in development of the applied project and as needed (Program Director)
- Adhere to Human Subjects regulations and HIPAA regulations.
- Meet program deadlines and outcomes established for each semester
- Submit iPOS and graduation documents to the University Graduate office and ECONHI Graduate office by the due dates

Research Involving Human and Animal Subjects
Students completing the MS in Nursing degree are required to complete an Applied Project where research principles are applied but actual research is not conducted. Students are required to complete CITI training.

Responsible Conduct of Research
Strategies for responsible conduct of research may be found: https://researchintegrity.asu.edu/.

VIII. OTHER STUDENT INFORMATION

Personal Record Forms
Students are requested to advise Arizona State University Registrar's Office regarding addresses, telephone, or name changes. Failure to do so interferes with the timely receipt of financial reimbursements or other important information. https://students.asu.edu/forms/registration

NEXus courses
The MS in Nursing program participates in the Western Institute of Nursing NEXus Consortium, which allows students in participating universities to enroll in courses at other participating universities for discounted rates. Students can search for courses at: http://www.winnexus.org/. Please note that the Graduate College has indicated that the 12 credit hour transfer limit applies to NEXus courses.
**Graduation**
The student is eligible for graduation when University and Graduate Education degree requirements have been met, the MS project has been passed, and final presentation made. All incomplete or “in progress” grades must be changed to indicate that these classes have been completed.

**Apply for Graduation**
The student’s iPOS must be approved and on file with the Graduate College before the student is eligible to apply for graduation. For further instructions, please refer to: https://students.asu.edu/graduation.

If the student intends to participate in commencement, the student must have completed all culminating work by the semester deadlines. It is the student’s responsibility to invite their mentor to participate in the commencement ceremony. Graduation Deadlines and Procedures are found at: https://students.asu.edu/graduation.

**Convocation**
The Edson College of Nursing and Health Innovation holds its own Convocation ceremony in conjunction with Fall and Spring Commencement. The Convocation Coordinator will send required information to graduates early in the semester concerning information needed. Students who have met all university and college degree requirements are encouraged to participate. It is the student’s responsibility to adhere to the convocation timelines.

---

**X. STUDENT AND PROFESSIONAL ORGANIZATIONS**

**Graduate Nurse Organization**
The Graduate Nurse Organization was established in 1975 and is a recognized student organization of Arizona State University. All students admitted to the MS Program are eligible for membership. Purpose:

1. To provide communication, cooperation, and understanding between Edson College of Nursing and Health Innovation graduate students and faculty.
2. To provide direct lines of responsibility to effectively handle all Edson College of Nursing and Health Innovation graduate student affairs.
3. To promote quality graduate education.

The Graduate Nurse Organization designates student representation on Edson College of Nursing and Health Innovation committees. Throughout the academic year this organization sponsors activities which foster career development and socialization among students.

**Graduate Professional Student Association (GPSA)**
GPSA is the official representative group of the graduate student body. The purpose of GPSA is to promote self-government and leadership at Arizona State University and to enhance the educational, social, and cultural experiences of the students. Every college in
the University is represented in GPSA by a College Council; each council elects two members to represent the respective college and serve as voting members in the Associated Student Senate.

Appendix A – Overview of Criminal Background/Drug Screening Requirements

Overview of Criminal Background/Drug Screening Requirements

Requirements:
- Students must pass the required background clearance obtained from ASU’s authorized vendor.
- Students are required to pay for the cost of obtaining the background clearance.
- Background clearances must be completed within 30 days of notification of conditional acceptance to a clinical program.
- Students will be required to pass an additional background clearance if they have a break in continuous enrollment in the clinical or research program.
- Students may be required to pass additional background clearances to meet the specific requirements of clinical or research agency partners.
- At all times during enrollment in a clinical or research program, students must maintain a passing disposition on all background clearances.
- Enrollment requirements related to background clearances are subject to change as mandated by clinical or research partners.

The Criminal Background Clearance Disclosure Acknowledgement directs students to honestly disclose all of the requested information as well as any information that the background clearance may discover.

Students have a duty to provide updated information as requested by the background clearance vendor. The following information may be requested by the background clearance vendor:

- Legal name, maiden name, and other names used
- Social Security number
- Date of birth
- All places of residence
- Arrests, charges or convictions of any criminal offenses, even if dismissed or expunged, including dates and details.
- Pending criminal charges that have been filed against you including dates and details. Participation in a first offender, deferred adjudication or pretrial diversion or other probation program or arrangement where judgment or conviction has been withheld.

The authorized ASU background clearance vendor will determine pass or fail status for each student based on the standards of Arizona State University and the Edson College of Nursing and Health Innovation.

The sole recourse of any student who fails the background clearance and believes that failure may have been in error is with the background clearance vendor and not ASU or the Edson College of Nursing and Health Innovation.
By applying to an ASU Clinical Nursing Program, you are affirming the following:

1. I understand that within 30 days of notification of conditional acceptance, I must submit to and pay any costs required to obtain the required criminal background clearance.

2. I understand that failure to obtain a “pass” as a result of the required criminal background clearance will result in my inability to enroll in a clinical or research program.

3. I understand that a clinical or research agency may require an additional criminal background clearance to screen for barrier offenses other than those required by ASU.

4. I understand that the following databases will be searched for the required background clearance. Searchable information may include but is not limited to the following:
   - Social Security verification
   - Searches of all names and aliases
   - Searches of all counties of residence
   - Criminal history search including local state and county and nation
   - National and local sex offender database search
   - Professional licenses
   - Government watch list
   - FACIS
   - Health care sanction history (exclusions, termination of license, debarments)
     i. Health and Human Services/Office of Inspector General (HHS/OIG)
     ii. List of Excluded Individuals/Entities (LEIE)
     iii. General Services Administration List of Contractors Excluded from Federal Procurement and Non Procurement Programs (GSA)
     iv. Excluded Parties List System (EPLS)
     v. U.S. Food and Drug Administration Debarment List and Disqualified/Totally Restricted List for Clinical Investigators (FDA)
     vi. Drug Enforcement Administration (DEA)
     vii. Tri-Care (Military Health System)
     viii. Public Health Services (PHS)
   - Homeland Security Search - 47 different National, International Terrorists and Fugitive Lists including
     i. Office of Foreign Assets Control (OFAC) Specially Designated Nationals/Terrorist List
     ii. Specially Designated Nationals
     iii. U.S. Bureau of Industry and Security Denied Persons
     iv. Postal Inspection Service
     v. Most Wanted Fugitives by U.S. Secret Service
     vi. U.S. Immigration and Customs Enforcement (ICE)
     vii. Bureau of Alcohol, Tobacco and Firearms (ATF)
     viii. FBI
     ix. DEA
   - Nationwide Federal Healthcare Fraud and Abuse Databases

5. I understand that I will be disqualified for enrollment in a clinical or research program, if I receive a failing disposition on the required background clearance.

6. The criminal offenses for disqualification may include but are not limited to any or all of the following:
   - Social Security Search - Social Security number does not belong to applicant.
   - Any inclusion on any registered sex offender database.
• Any inclusion on any of the Federal exclusion lists or Homeland Security watch list.
• Any conviction of felony no matter what the age of the conviction.
• Any warrant in any state.
• Any misdemeanor conviction for the following - No matter age of crime
  o violent crimes
  o sex crime of any kind including non-consensual sexual crimes and sexual assault
  o murder, attempted murder
  o abduction
  o assault
  o robbery
  o arson
  o extortion
  o burglary
  o pandering
  o any crime against minors, children, vulnerable adults including abuse, neglect, exploitation
  o any abuse or neglect
  o any fraud
  o illegal drugs
  o aggravated DUI
• Any misdemeanor controlled substance conviction within last 7 years.
• Any other misdemeanor convictions within last 3 years.
• Exceptions: Any misdemeanor traffic (DUI is not considered traffic)

7. I understand that I must disclose on all background clearance inquiries all required information including any arrests, convictions, or charges (even if the arrest, conviction or charge has been dismissed or expunged), or participation in first offender, deferred adjudication, pretrial diversion or other probation program. That includes any misdemeanors or felonies in Arizona, any other state, or other jurisdiction.

8. I understand that my failure to disclose relevant or required information on all background clearance inquiries will result in a violation of the ASU student code of conduct and may be subject to sanctions under that code.

9. I understand that I will not be able to complete a clinical or research program, if a clinical or research agency to which I have been assigned does not accept me based on the results of my background clearance.

10. I understand the Arizona State University and the Edson College of Nursing and Health Innovation reserves the authority to determine my eligibility to enroll in a clinical or research program, and that enrollment or background clearance requirements may change without notice.

11. I understand that I have a duty to report to the Program Director within 48 hours any arrests, convictions, or placement on exclusion databases.
Drug Screening Requirements (April 2017)

1. All admitted graduate nursing students must provide evidence of a negative drug/alcohol screen before beginning the Master’s Degree program.

2. Inconclusive drug test results or drug test results below acceptable levels for creatinine and specific gravity indicate dilution of urine and may require re-testing at the student’s expense.

3. Students who refuse to comply with this requirement will forfeit their admission status.

4. Students whose drug screen results are positive, and who do not submit data about prescription drugs that may result in a positive drug screen, will forfeit their admission status.

5. Students taking prescription drugs may receive a positive drug screen report. Students are advised to request a letter (on the provider’s official letterhead stationery) identifying the prescribed drug(s), reason for the prescription(s), and whether the drug needs to be taken prior to the drug screen. Please contact the Master’s Program Director for more information @ 602-496-0861. All information will be kept confidential.

6. Cost of the Drug/Alcohol Screen is the responsibility of the student. If a second drug screen is required, the cost of this second drug screen is also the student’s responsibility.

7. Results of your drug screen are sent directly to the Edson College of Nursing and Health Innovation, Graduate Program Office. All results are confidential.

8. The drug screen will include the following drugs:

<table>

Appendix C – Standards Committee

Arizona State University - Edson College of Nursing and Health Innovation

Information about the Edson College of Nursing and Health Innovation (ECONHI) Standards Committee is offered here, because students may need to petition this Committee in relation to their progression through the Baccalaureate Nursing program. The intent of this information is to provide the students with an idea of how this Committee functions.

Purpose:
The Standards Committee is charged with the responsibility of maintaining standards of admission, progression, retention, and graduation and/or course completion in accordance with established Edson College and University standards. The Standards Committee is comprised of faculty, staff, and student representatives from both undergraduate and graduate programs.

Functions:
1. Propose and implement policies and standards for admission, retention, graduation, and course completion in the graduate and undergraduate programs in accordance with standards established by the University and the Edson College of Nursing and Health Innovation.

2. Coordinate the College policies and standards with the appropriate University procedures and protocols.

3. Provide a forum for students to petition aspects of their academic studies requesting exceptions to established protocols of the college and university.

4. Make recommendations to the Faculty Assembly regarding proposed changes in protocols and standards.

5. Communicate change in Edson College of Nursing and Health Innovation and University policies and standards to the faculty and academic advisors.

Membership:
The Committee is composed of members with representation from faculty who teach in the undergraduate and graduate programs; student representatives from undergraduate and graduate programs; and Ex-Officio members representing the Undergraduate Student Academic Services Office and Academic Affairs Office (Baccalaureate Program, RN Baccalaureate Program, Graduate Program, and Interprofessional Programs).

Petitioning Procedure:
A petition is a formal request initiated by students and submitted to the ECONHI Standards Committee when an exception is requested or if approval is needed for curricular adjustment, a change from part-time to full-time status, or vice-versa; a clinical rotation change; an overload of semester hours; readmission to nursing courses and/or Baccalaureate Nursing program; or similar circumstances. A petition is required, because these requests reflect a deviation from the University and/or ECONHI standards. The Standards Committee acts on all petitions.

1. Petition forms are available online at http://nursing.asu.edu/students/forms and in the Undergraduate Student Academic Services Office.
2. Petitions are initiated by students with the assistance of their academic advisors. Students are responsible for representing themselves and their situation accurately, and petitions may be returned to students who fail to complete petitions accordingly. College academic advisors can assist students with petition preparation.

3. Students must sign completed petition forms.

4. Students must attach supporting documentation as directed by their academic advisors. Documentation may include a copy of a course description from another catalog or another college, course syllabi from when course was taken, or a letter from the student’s course instructor.

5. A student, who has not been enrolled for one or more semesters and is submitting a petition for placement in a clinical course, must provide an updated *Statement of Health Clearance* and *Statement of Health Insurance* prior to the beginning of the semester.

6. Students submit completed petition with attachments and appropriate signatures to the Undergraduate Student Academic Services Office on the Downtown Campus.

   a. Petitions for a change to University requirements will be reviewed by the ECONHI Standards Committee, who will make a recommendation to the University Standards Committee. The University Standards Committee makes the final decision.

   b. Petitions regarding College rather than University exceptions are acted on by the Edson College of Nursing and Health Innovation Standards Committee and their decisions are final.

8. Petition results will be mailed to students.

   Students have the right to appeal ECONHI Standards Committee decisions. Appeals must be made in writing and include additional information to warrant Committee reconsideration. If the student wishes to be present during the Committee discussion, this request should be included in the written appeal. Submit the appeal within 2 weeks of the decision to the College of Nursing and Health Innovation Undergraduate Student Academic Services Office on the Downtown Campus.
Appendix D – Substance Abuse

Purpose
To fulfill eligibility criteria for admission to the program.
To provide guidelines for removing students from an educational setting who are suspected of being substance impaired.

Sources
Arizona State University Staff Personnel Policies and Procedures Manual
http://www.asu.edu/aad/manuals/spp/index.html
The Academic Affairs Policies and Procedures Manual

http://www.azregents.edu/policymanual/default.aspx
Edson College of Nursing and Health Baccalaureate Program Handbook for Clinical Nursing Students
https://nursingandhealth.asu.edu/files/students/handbooks/ug.pdf

Applicability
Students in the Edson College of Nursing and Health Innovation are subject to all applicable drug/alcohol policies set forth by the Federal Government, the State of Arizona, the Board of Regents’ Code of Conduct and Rules for Maintenance of Public Order, Arizona State University, the College of Nursing and Health Innovation and those agencies with whom the University has contractual agreement.

Protocol
It is the goal and policy of Arizona State University (ASU) to provide a drug free environment for all university students and employees.

Procedure
Preadmission Drug/Alcohol Screening
A drug/alcohol screen is required of all students prior to admission to any Edson College of Nursing and Health Innovation (ECONHI) professional nursing program. Test results are kept confidential. Prospective students who refuse to have the drug/alcohol screen will not be considered for admission to an ECONHI program.

Students on prescription drugs that may result in a positive drug screen are advised to complete the following actions prior to the drug/alcohol screen:
- Contact the health care professional who prescribed the medication and request that he/she submit in writing to the dean’s substance abuse designee at the ECONHI the prescribed drug(s) and whether the drug needs to be taken prior to the drug/alcohol screen.
Appendix D – Substance Abuse

Students taking substances other than prescription drugs such as over the counter substances or some foods (e.g. poppy seeds) are advised to determine whether these substances may result in a positive drug/alcohol screen prior to having the drug/alcohol screen.

Preadmission Drug/Alcohol Test Results
Pre-admission drug/alcohol test results will be evaluated by the dean's substance abuse designee. Prospective students whose drug/alcohol test results are negative may proceed with the admission process.

The dean’s substance abuse designee will consult with the medical review officer to determine whether positive drug/alcohol test results represent substance abuse.

Prospective students, whose drug/alcohol test results are positive, and who did not submit data about prescription drugs that may result in positive drug/alcohol test results, will be denied admission to the Edson College of Nursing and Health Innovation.

Positive drug/alcohol test results of applicants, who previously arranged to have data submitted about prescription drugs, will be evaluated by the dean’s substance abuse designee and the medical review officer. If it is determined that the positive results are due to the identified prescription drug(s), the prospective students may proceed with admission process. If the positive drug/alcohol test results are not related to the specified prescription drugs, admission to the Edson College of Nursing and Health Innovation will be denied.

Inconclusive tests results, regardless of the cause, require retesting at the student’s expense. Inconclusive findings may include test results that are negative for stated drugs and alcohol, but reflect dilution of urine.

Prospective students with inconclusive drug/alcohol test results who refuse to be retested will be denied admission to the Edson College of Nursing and Health Innovation.

Repeat inconclusive test results will be evaluated by the dean’s substance abuse designee, in consultation with the medical review officer, to determine the meaning of the inconclusive test result.

Procedure for Removing Student Suspected of Substance Abuse from an Education Setting
Purpose: To provide guidelines for removing students from an educational setting who are suspected of being substance impaired.

Procedure: when a perceived impairment is reasonably suspected to be drug and or alcohol related, the faculty member or faculty designee must take immediate action to relieve the student of her/his duties and remove the student from the clinical or classroom area. The immediate goal is to provide for the safety of patients, the public, students and the student who is suspected of being substance impaired.

Suspicion of Substance abuse (Faculty Member Responsibilities):
In a teaching situation, when a faculty member or faculty designee perceives the odor of alcohol or observes behaviors such as, but not limited to, slurred speech, unsteady gait, or confusion, which causes the faculty member or designee to suspect the student is impaired by a substance, the faculty member or designee must:

Immediately consult with another faculty member or faculty designee for verification of suspicions.

Conduct the verification in a confidential and respectful manner.
Appendix D – Substance Abuse

Upon verification by the second person:

Immediately inform the student as to why actions are being taken to relieve the student of her/his duties. Ask the student if she/he will consent to undergo a drug/alcohol screening test. Inform the student that the student will need to attend a meeting with the dean or the dean’s substance abuse designee, the faculty member, and a Substance Abuse Committee member. The meeting will be scheduled within 48 hours or within two working days of the incident. Make arrangements to transport the student for a “for cause” drug/alcohol screening test or to the student’s home.

Remove the student from the immediate educational setting and have either the faculty member or designee remain with the student until transport. Inform the dean of the Edson College of Nursing and Health Innovation or the dean’s substance abuse designee of the incident and the accompanying circumstances. Arrange for a meeting within 48 hours or two working days with the dean or the dean’s designee, a member of the Substance Abuse Committee, the student and the faculty member who reported the incident, to discuss the incident and determine actions to be taken.

Student Agreement to Drug/Alcohol Testing and Transport:
If the student agrees to drug/alcohol testing, the faculty member or designee will ask the student to sign the “Consent for Screening and Transportation” form (Form A) After the student signs the consent form, the faculty member will then contact the contracted transportation organization, who will transport the student to a designated drug screening center. The student is to remain in visual contact with faculty member or designee from the time the contracted transportation organization is contacted until the student is picked up.

Student Refusal to Submit to a For Cause Drug/Alcohol Test and/or Transport:
If the student refuses to submit to a for cause drug/alcohol screening test even though the faculty member has confirmed her or his suspicion with another person or if the student admits to using alcohol or other substances prior to the suspect conduct, the following actions will be taken: The student will be immediately removed from the clinical or educational setting but will remain in visual contact with the faculty member or designee. The student exhibiting behaviors indicative of possible impairment will be offered safe transportation home by the contracted transportation organization. The faculty member will ask the student to sign the “Consent for Transportation Home Only” form (form B). If the student signs Form B, the faculty member will then contact the contracted transportation organization to arrange for the student’s transportation home.

If the student refuses to sign the “Consent for Transportation Home Only” Form, the faculty member or designee will determine whether the student or the public will be at risk for injury if the student leaves of
Appendix D - Substance Abuse

her his own accord. If the faculty member or faculty designee identifies a risk, the faculty member or designee will notify the police. The faculty member will initiate a meeting with the dean, or the dean's substance abuse designee, a member of Substance Abuse Committee, the faculty member who reported the incident and the student. (See Policy 10 for information regarding the meeting.)

Reapplication for Admission to a College of Nursing and Health Innovation Program after a Positive or Inconclusive Drug/Alcohol Test Result
An individual who was previously refused admission for a positive or inconclusive drug/alcohol test result, or who was withdrawn from a College of Nursing and Health Innovation program due to a positive or inconclusive drug/alcohol test result, may reapply after at least one full semester has passed. If the individual provides evidence of the following prior to reapplication:
A negative drug/alcohol screen, no more than 30 days before reapplication.
Official documentation of the treatment recommended by an approved certified addiction specialist and/or addictionologist.
Official documentation of participation in a recognized drug/alcohol treatment program as recommended above.
Evidence of continued attendance and or completion of an approved drug/alcohol aftercare/follow-up treatment program.
Signature on the Memorandum of Agreement (Form C) which states the condition that must be met to be admitted to and continue in the College of Nursing.
Signature on the Agreement to Self-Report to the Arizona State Board of Nursing Chemically Addicted Nurses Diversion Option (Can Do) Program, (Form D or E).
(NOTE: See Policy 8 for further information regarding self-reporting to the Board of Nursing.)

Positive “For Cause” Drug/Alcohol Test Results While Enrolled in a College of Nursing Program
If the result of a “for cause” drug/alcohol test is positive and until a decision is made concerning the student incident by the dean, or designee, the student will be suspended from all clinical settings and any other setting in which the student interacts with patients, students, or other members of the public through programs sponsored by the College of Nursing and Health Innovation.

Any student enrolled in a College of Nursing and Health Innovation program, who had a negative pre-admission drug/alcohol screen, and who is found to have a positive “for cause” drug/alcohol test while enrolled in a program, will be withdrawn from the program for at least one semester, following review of the drug/alcohol test results by the dean’s designee in consultation with the Medical Review Officer. Petition of Standards Committee for continuation in the nursing program may occur after the conditions listed Policy #5 are met.
Any Licensed Practical Nurse or Registered Nurse enrolled in the Edson College of Nursing and Health Innovation found to have a positive “for cause” drug/alcohol test, will self-report to the Arizona State Board of Nursing CANDO Program.
Appendix D - Substance Abuse

Positive Drug/Alcohol Test Results due to Prescription Drug Use
If the student reports that the positive drug/alcohol test result is a result of prescription drug use, the student will be requested to arrange for the prescriber to provide the following information to the dean's designee: The prescriber’s statement detailing the drug, dose, frequency, effect, expected duration of treatment, any indication of abuse of the prescription drug(s) and any contraindications to being in the clinical setting while on the drug.
If the student is unable to have the prescriber forward a statement to the dean's designee regarding the drug, the test will be treated as a positive.

Students who have Second Positive Drug/Alcohol Test Result
Positive “for cause” drug/alcohol test results will be reviewed by dean's substance abuse designee, in consultation with the medical review officer.
Any student enrolled in a College of Nursing and Health Innovation program that had a positive pre-admission drug/alcohol test result and subsequently has a second positive drug/alcohol test result will be permanently dismissed from the College of Nursing and Health Innovation.
Any student enrolled in a College of Nursing and Health Innovation program who had a positive “for cause” drug/alcohol test result, was subsequently readmitted to a program, and then has a second positive “for cause” drug/alcohol test result, will be permanently dismissed from the College of Nursing and Health Innovation.
Any student who refused a “for cause” drug/alcohol test will be permanently dismissed from the College of Nursing and Health Innovation.

Application for Readmission to a College of Nursing Program after a Positive For Cause Drug/Alcohol Test Result
Any individual who requests readmission to a College of Nursing and Health Innovation program after treatment for a drug/alcohol problem following a positive drug/alcohol test result, must meet the condition set forth in Policy 5 before readmission to the College of Nursing and Health Innovation is considered.
Memorandum of Agreement (MOA) Conditions of Continuation in Program: Students subject to a current “Memorandum of Agreement,” (Form C), must personally notify all current and future faculty members of that status before functioning in a course.
A member of the Substance Abuse Committee will be designated by the chair of the Substance Abuse Committee to monitor the student’s compliance with the Memorandum of Agreement, to serve as a liaison between the student and faculty members and to ensure faculty members are notified that the student is functioning under the Memorandum of Agreement (MOA).

Meeting to Determine Actions Based on Drug/Alcohol Test Results
A meeting will be held within 48 hours, or within two working days, to determine student progression in a College of Nursing and Health Innovation program following an incident in which a student is removed from the educational setting for suspected drug/alcohol use.
Effective: 11/12/99 Reviewed: 4/1/13 Revised: 5/1/09

Appendix D – Substance Abuse

The meeting will be attended by the dean or the dean’s substance abuse designee, a member of the Substance Abuse Committee, the faculty member who reported the incident, and the student. The meeting will occur within 48 hours, or within two working days, of the incident. The Faculty member will provide documentation about the student’s behavior that was suggestive of possible substance abuse, the actions taken, the student’s response, and all other pertinent information and deliver it to the dean, or the dean’s designee within 24 hours or the next working day after the incident.

At the meeting, the student will be requested to provide an explanation regarding the incident and her/his behavior.

The dean or the dean’s substance abuse designee, the student and a member of the Substance Abuse Committee will have access to the documentation of the incident, the meeting, and the drug/alcohol test results, if done.

See Policies 6, 7, and 8 for actions taken for positive, a decision will be made within five working days after the meeting, about the student’s continued progression in the College of Nursing and Health Innovation Program.

If the “for cause” drug/alcohol test result is positive, a decision will be made within five working days after the meeting, about the student’s continued progression in the College of Nursing and Health Innovation program.

If the “for cause” drug/alcohol test result is inconclusive, the drug/alcohol test will be repeated. If the drug/alcohol test result is again inconclusive, a decision regarding the student’s progress will be made based on available data. This decision will be made within five working days after the last repeat drug/alcohol test result is reported to the College of Nursing and Health Innovation substance abuse designee.

If the result of the drug/alcohol test is negative, consideration must be given to a possible medical condition being responsible for the symptoms. Based upon the specific indicators involved, a medical referral for evaluation may be necessary before the student can continue in the educational setting.

The documentation of the incident, the meeting, the drug/alcohol test results, if done, and the results of a medical evaluation if indicated will be forwarded to the Substance Abuse Committee. At least three members of the Substance Abuse Committee will be convened to review the data. Based on that information the Substance Abuse Committee will make a recommendation to the dean or the dean’s substance abuse designee, regarding the student’s progression in the College of Nursing and Health Innovation program in which the student is enrolled.

Hearing Process

The student is entitled to a hearing prior to the imposition of any penalty (i.e., denial of admission, suspension, or permanent dismissal from the College of Nursing and Health Innovation). To obtain a hearing, the student must submit a written request to the dean of the College of Nursing, or the dean’s designee, for a hearing within five (5) working days after notification of the penalty. Failure to request a hearing will result in a waiver of the hearing. The penalty will be imposed after five (5) working days have elapsed.
Appendix D – Substance Abuse

The University Vice-President for Student Affairs or her/his designee will act as the hearing officer. The student will be provided written notice of the positive test result, the penalty to be imposed and notification of the date, time and place of the hearing.

Only the student, a representative from the College of Nursing and Health Innovation, the hearing officer and an attorney or advisor for the student may be present for the hearing. If the student chooses to bring an attorney, the College of Nursing and Health Innovation may also have an attorney present. Attorneys and advisors may not participate in the hearing or address the hearing officer directly. The role of the advisor or attorney is limited to advising the student or the College of Nursing and Health Innovation representative.

The student will be provided an opportunity to present her/his position regarding the positive test results and the penalty to be imposed, as well as any related information which the student thinks may assist the hearing officer in determining whether the student should be denied admission, suspended or dismissed from Arizona State University.

Following the hearing, the hearing officer will prepare a brief summary of the hearing, including the following:

- The names of those persons present at the hearing.
- The date, time and place of the hearing.
- The test results.
- The position presented by the student.
- The position presented by the College of Nursing and Health Innovation representative.
- A decision that the penalties should or should not be imposed and the rationale for this position.

In the event that the hearing officer proposes that the penalties should not be imposed, the hearing officer may develop other sanctions or alternative.

The report of the hearing officer should be completed and forwarded to the dean or the dean’s designee in the College of Nursing and Health Innovation within ten (10) working days after the hearing.

The dean, or the dean’s designee, after reviewing the report and recommendations from the hearing officer, will notify the student in writing of the findings of the hearing officer within five working days.

Confidentiality

All incidents involving actual or suspected substance abuse in the clinical/educational setting will be handled as confidentially as possible. Faculty members may consult with members of the Substance Abuse Committee and/or dean’s substance abuse designee for appropriate action/ follow up.

All records relating to “the perceived impairment and Memorandum of Agreement” will be kept separate from the student’s regular files. Except as otherwise required by law, the records relating to substance impairment will be available to the dean or the dean’s substance abuse designee, and members of the Substance Abuse Committee. Documentation must be related specifically to the incident. Documentation regarding clinical/education performance issues will continue to be maintained in the standard student files.
Self-Reporting to the Arizona State Board of Nursing Chemically Addicted Nurses Diversion Option (CANDO) Program

All students enrolled in a College of Nursing and Health Innovation program who have had a positive drug/alcohol screen must comply with the following conditions:

Purpose and conditions of signing the Agreement to Self-Report to the Arizona State Board of Nursing Chemically Addicted Nurses Diversion Option (CANDO) Program (Form D or E):

The purpose for signing the Agreement to Self-Report to the Chemically Addicted Nurses Diversion Option (CANDO) Program of the Arizona State Board of Nursing is so further monitoring can be implemented if determined to be necessary by the CANDO Program.

Signature of the Agreement to Self-Report gives permission to the College of Nursing to release records pertaining to the student to the CANDO program to facilitate a decision about further monitoring.

Signature of Agreement to Self-Report gives permission to the CANDO program to inform the College of Nursing about whether the self-report to CANDO has occurred.

Self-Reporting Procedure:

Licensed practical or registered nurses who had a positive pre-admission or “for cause” drug/alcohol test result must register with the Arizona State Board of Nursing within 30 days after admission to a College of Nursing Program, as agreed upon by signing the Agreement to Self-Report (Form D).

Unlicensed applicants who had a positive pre-admission or “for cause” drug/alcohol screen must register with the Arizona State Board of Nursing thirty (30) days prior to graduation from the program, as agreed upon by signing the Agreement to Self-Report (Form E).

Memorandum of Agreement (MOA) Condition of contribution in Program
FORM C
(Make two (2) Additional Copies*)

(Ask the student to initial each point after it is explained)

I, ________________________________________, recognize that I have chemical
dependency issues, and agree to abide by the following conditions for continuance in the
nursing program.

I agree to abstain from alcohol and all other mind or mood altering and/or potentially
addicting drugs. In the event such medications may be needed as a legitimate part of my
medical treatment, I agree to provide the dean or the dean’s substance abuse designee, the
Substance Abuse Committee and my current faculty members with a letter from the health
care provider, the name of the medication and the reason the medication is prescribed.
I agree to inform my treatment addiction specialist (whose name is ___________________________)
of the conditions of this agreement and request that she/he not prescribe any
mood altering, potentially addictive drugs, including of the above medication for me unless
there is no reasonable alternative medically. Should any of these medications be prescribed
by health care practitioner, I will request that she/he inform the dean, or the dean’s
substance abuse designee, and the Substance Abuse Committee in writing. I gave my
addiction specialist the authorization to release information to the Substance Abuse
Committee to the extent necessary to monitor my compliance with this agreement.
I agree to comply with my treatment plan for chemical dependency as defined by/with my
addiction specialist. I further agree to provide the Substance Abuse Committee with a copy
of the treatment plan and any changes in my treatment plan.
I agree to be financially responsible for all costs associated with my treatment in order to
stay in compliance with the agreement.
I agree to submit to the Substance Abuse Committee, in writing every other month, reports
from my addiction specialist of my progress in treatment. The first report is due __________
__________________
I agree to submit to random urine or blood drug/alcohol screens as requested by the
Substance Abuse Committee and am responsible for all fees incurred. I understand that a
positive screen for drug/alcohol, except those drugs which I have been legitimately
prescribed by my health care practitioner, may be grounds for dismissal from the Edson
College of Nursing and Health Innovation, Arizona State University.
A review of this Memorandum of Agreement will occur at one year and when either party
requests it.
I understand that I will not administer or have access to controlled substances while under
treatment or adhering to this agreement.
I understand that my clinical assignment may be modified as a result of this agreement and
that clinical agencies may need to be informed of the terms of this agreement.
I agree to indemnify the state of Arizona, the Arizona Board of Regents, Arizona State
University and their employees and agents for all costs, claims and damages, including
reasonable attorney fees, arising from any failure by me to comply with the terms of this Memorandum of Agreement.

I agree to reimburse the Edson College of Nursing and Health Innovation $________ for damages resulting from my conduct. Payment in full is due upon executing of this Memorandum of Agreement. (Or- I agree to pay this amount in x monthly/weekly installments of $____________). I understand that failure to make an installment payment when due may result in my dismissal from the Edson College of Nursing and Health Innovation and will render the full amount due immediately. The first installment is due __________(date) and the remaining installments are due on the first business day of each following month/week. All payments must be made to the dean of the Edson College of Nursing and Health Innovation.

I agree to abide by the terms of this Memorandum of Agreement while enrolled as a student in the Edson College of Nursing and Health Innovation.

I understand that failure to comply with Conditions for Continuation in the Program may be grounds for dismissal from the Edson College of Nursing and Health Innovation, Arizona State University.

I understand I may be monitored for substance abuse via random screening during the time I am a student at the Edson College of Nursing and Health Innovation, Arizona State University.

I understand that Arizona State University Edson College of Nursing and Health Innovation cannot guarantee my ability to sit for the nurse licensure examination, or maintain registered nurse licensure even after the terms of this agreement have been met.

necessary by the CANDO Program.
I give permission to the Edson College of Nursing and Health Innovation to release records
pertaining to my case to the CANDO Program to facilitate a decision about monitoring.
I give permission to the CANDO Program to inform the Edson College of Nursing and Health
Innovation about whether the self-report to the CANDO Program has occurred.
As a student, I understand that verification of meeting graduation requirements will be
withheld until the Arizona State University Edson College of Nursing and Health Innovation
has received confirmation from the State Board of Nursing that I have self-reported to the
CANDO Program.
I agree to release and indemnify the State of Arizona, the Arizona Board of Regents, Arizona
State University and their employees and agents from all claims and expenses arising from
actions taken by the Arizona State University Edson College of Nursing pursuant to this
agreement.

Appendix E – Safe Practices in Clinical Settings

The student in the Edson College of Nursing and Health Innovation is expected to demonstrate safe professional behavior which includes promoting the actual or potential well-being of clients, healthcare workers, and self in the biological, psychological, sociological, and cultural realms and demonstrating accountability in preparation for, provision and documentation of nursing care.

The purpose of setting safe performance clinical standards is to: 1) identify expectations of the Edson College of Nursing and Health Innovation; 2) to comply with licensure regulations and agency agreements; and 3) to identify and help students who need assistance and support to succeed in the nursing program.

Indicators to be used as guidelines for determining safe performance are:

1. Regulatory: Students practice within the boundaries of the Arizona State Nurse Practice Act, the ANA Code of Ethics for Nurses; the guidelines, objectives and policies of the Edson College of Nursing and Health Innovation; and the rules and regulations of the healthcare agency where they are assigned for clinical learning experience. Students are also required to obey all applicable laws.
   Examples of unsafe practice include but are not limited to the following:
   - fails to notify the agency and/or instructor of clinical absence.
   - fails to follow Edson College of Nursing and Health Innovation and/or agency policies and procedures.
   - reports for clinical practicum under the influence of drugs and/or alcohol.

2. Ethical: The student performs according to the guidelines of the American Nurse’s Association Code of Ethics for Nurses, Standards of Practice, and the Arizona State Nurse Practice Act. Students must be able and willing to accept professional supervision from faculty and other supervisors and effectively integrate feedback they perceive.
   Examples of unsafe practice include but are not limited to the following:
   - refuses assignments based on client’s race, culture, religious preference, sex, sexual orientation, national origin, age, handicapping condition or any other protected status category.
   - fails to consult with instructor prior to refusing assignment based on medical diagnosis of the client.
   - denies, covers-up or does not report own errors in clinical practice.
   - ignores and fails to report unethical behavior of other healthcare persons in the clinical setting which affects client welfare.

3. Biological, Psychological, Social, and Cultural Realms: The student’s performance meets the needs of the human system from a biological, psychological, sociological, and cultural standpoint at the level of the nursing course objectives.
   Examples of unsafe practice include but are not limited to the following:
   - displays mental, physical, or emotional behavior(s) which may adversely affect others’ wellbeing.
• fails to follow through on suggested referrals or interventions to correct deficit areas which may result in harm to others.
• commits acts of omission or commission in the care of clients in hazardous positions, conditions, or circumstances; mental or emotional abuse; and medication errors.
• interacts inappropriately with agency staff, co-workers, peers, patients/clients, families, faculty resulting in miscommunication, disruption of client care and/or unit functioning.
• lacks physical coordination essential for carrying out nursing procedures.
• lacks information processing ability necessary for making appropriate clinical judgments or decisions.

4. Accountability: The student’s performance demonstrates consistency in the responsible preparation, documentation, and promotion for the healthcare of clients, according to course objectives. Examples of unsafe practice include but are not limited to the following:
• fails to provide inclusive written communication on appropriate documents or verbal communication to faculty and/or appropriate agency personnel.
• fails to accurately record essential client behaviors.
• fails to report incompetent, unethical or illegal practice of any person.
• attempts activities without adequate orientation, theoretical preparation or appropriate assistance.
• fails to maintain honesty in clinical practice and/or written work.
• is habitually tardy to clinical practicum.

5. Human Rights: The student’s performance demonstrates respect for the individual, client, health team member, faculty, and self, including but not limited to the legal, ethical, and cultural realms. Examples of unsafe practice include but are not limited to the following:
• fails to maintain confidentiality of interactions.
• fails to maintain confidentiality of records.
• exhibits dishonesty in relationships with peers, faculty, clients/patients and/or agency personnel.
• fails to recognize and promote every patient’s rights.

Implementation
Unsafe behaviors(s) related to a student’s performance must be clearly described and documented. Confirmation, or with supporting observation of clinical staff, should be included in the documentation of the performance problems, if possible. The student has a right to provide input and/or data regarding his/her clinical performance and to consult with the clinical instructor, the course coordinator, site coordinator, program director, and/or associate dean.

The clinical instructor will document unsafe behaviors and take appropriate action which may include one or more of the following:
• A conference between the student and clinical instructor;
• Discussion of appropriate action by student;
• Written agreement between faculty and student for behavioral remediation;
• Consultation by faculty member and student with the course chairperson and/or associate dean;
• Referral to the campus Health Services for physical health assessment to determine if there are any factors impacting on students’ performance, and any recommendations for healthcare;
• Referral to Counseling and Psychological Services for psychological or drug/alcohol assessment to determine if there are any factors impacting on student performance and any recommendation for healthcare;
• Request consent from student for release of information to and from referring service;
• Consultation by student with own healthcare provider and evidence of such action to the associate dean;
• Removal from the clinical practicum with appropriate action, e.g., with a failure to meet clinical course objectives, leading to possible suspension or dismissal from the nursing program.

The Dean or designee may, with sole discretion, adopt alternate procedures as appropriate to the circumstances as long as those procedures are communicated in writing to the student.

The student may initiate the appeal process according to the procedures outlined in the Edson College of Nursing and Health Innovation Student Handbook.

In such case that the behavior violates the Arizona Board of Regents’ Code of Conduct, charges will be brought under this Code.

Allegations of academic dishonesty are subject to review under the ASU Academic Integrity Policy http://provost.asu.edu/academicintegrity

Allegations of scientific misconduct are subject to review under ASU Policy RSP210: Misconduct in Research in the Research and Sponsored Projects Policies and Procedures Manual https://researchintegrity.asu.edu/coi/misconduct

The Office of Diversity Staff is available to investigate and resolve allegations of unlawful discrimination or harassment http://diversity.asu.edu/node/2

Applicability

All ECOHNI students.

Protocol

It is the policy of the Edson College of Nursing and Health Innovation to provide informal and formal mechanisms to facilitate the systematic review and resolution of student academic grievances.

Procedure

I. Introduction

A. The Academic Grievance Process of the College consists of both an Informal and Formal Procedure. The Aggrieved Student who has a concern or claim based upon an event or condition allegedly resulting from unfair application of College and/or course policies and/or procedures has the right to question the application through the process established for this purpose.
B. The Aggrieved Student will complete the informal process before initiating the formal process. The aggrieved student may contact the ombudsperson to assist with the filing of the grievance.

C. The Aggrieved Student may terminate an Academic Grievance at any time by submitting a written request to the Associate Dean for Academic Affairs. If such a decision is reached by the Aggrieved Student, the Faculty Member(s), Chair of the Academic Grievance Committee and appropriate Academic Program Director will be immediately notified in writing of the termination of the Academic Grievance.

II. Student Academic Grievance: Informal Procedure
A. Step 1: Within 5 business days from the alleged academic grievance the Aggrieved Student prepares and submits the Academic Communication Form (Attachment A-1) to the Faculty Member(s).

B. Step 2: Faculty Member(s) and Aggrieved Student meet within 5 business days of faculty receipt of the Academic Communication Form (Attachment A-1) in an attempt to resolve the Academic Grievance. In the context of the meeting:
   a. The Aggrieved Student is responsible for providing evidence regarding the event or condition that allegedly resulted from unfair application of the College and/or course policies and procedures.
   b. The Faculty Member(s) is obliged to review the material(s) presented and respond to the evidence and reasons presented.
   c. If the Academic Grievance is resolved, the Academic Communication Form (Attachment A-1) is signed by both parties and forwarded to the Associate Dean for Academic Affairs, concluding the Informal Grievance process.

C. Step 3: If the Academic Grievance is not resolved, the Aggrieved Student may appeal to the appropriate Academic Program Director or designee by forwarding the Academic Communication Form (Attachment A-1) to the Academic Program Director and request a meeting to be held within 10 business days of the completion of B. Step 2. The appropriate Academic Program Director or designee will inform the Faculty Member(s) that the Aggrieved Student has requested a meeting regarding the alleged grievance.

D. Step 4: The Aggrieved Student and the appropriate Academic Program Director or designee meet. In the context of the meeting with the Aggrieved Student:
   a. The Aggrieved Student is responsible for providing evidence, and reasons in support of the Academic Grievance.
   b. The appropriate Academic Program Director or designee is obliged to review the material(s) presented and respond to the evidence and reasons presented on the Academic Communication Form (Attachment A-1).
   c. The Academic Program Director or designee will inform the student and faculty of the outcome of the meeting using the Academic Communication Form (Attachment A-2). A copy of Academic Communication Form (Attachment A-2) will be provided to the student, faculty and Associate Dean for Academic Affairs.
   d. If the Academic Grievance is resolved, this terminates the Informal Procedure.
   e. If the Academic Grievance is not resolved, the Aggrieved Student, within ten (10) business days of the meeting between Academic Program Director or designee and student will prepare and submit the Academic Communication Form (Attachments A-1 and A-2) and the Statement of Academic Grievance Form (Attachment B-1), and request an initiation of a formal grievance from the Associate Dean for Academic Affairs.
III. Initiation of a Formal Grievance
A. Step 1: The role of the Associate Dean for Academic Affairs:
   a. Advises the Aggrieved Student of the protocol for the Formal Grievance Procedure.
   b. Notifies the chair of the Academic Grievance Committee within 5 business days of the student’s request
   c. Appoints a faculty member to serve as temporary chair to convene the committee in the event that the Chair or chair elect are not available to convene the committee

IV. Student Academic Grievance: Formal Procedure
A. Step 1: The Chair and members of the Academic Grievance Committee will review the submitted Academic Communication Forms (Attachments A-1 and A-2) and the Statement of Academic Grievance Form (Attachment B-1) within five (5) business days of notification of a Formal Grievance request to determine whether the occurrence is an appropriate grievance.
   a. the outcome of the review (Attachment C-4) will be forward to the Aggrieved Student, Faculty Member(s), and Associate Dean for Academic Affairs within five (5) business days
   b. within 5 business days of notification outcome of the review (Attachment B-2) that supports a formal grievance hearing, the following data must be submitted to the Chair of the Academic Grievance Committee
      i. The Aggrieved Student is responsible for providing the Chair:
         1. Evidence and reasons in support of the Academic Grievance
         2. Names of supporting individuals and their written statements in support of the Academic Grievance
         3. Any other relevant documents that will be offered in support of the Academic Grievance
      ii. The Faculty Member(s) is/are responsible for providing the Chair:
         1. Evidence in support of the Faculty Member(s) position, (2) names of supporting individuals and their written statements in support of the Faculty Member(s) position
         2. Any other documents relevant to the Academic Grievance that will be offered in support of the Faculty Member(s) position
   c. The rights and obligations of all parties involved are:
      i. All parties have the right to an Advocate of their choice with whom to consult and from whom to receive assistance in preparation for the hearing. The Advocate may attend the meeting as an observer only but will have no voice.
      ii. All parties have the Right to Discovery - to have access to copies of all supporting documents that will be presented at the Academic Grievance Committee hearing
      iii. All parties have the right to challenge the impartiality of any member of the Academic Grievance Committee.
      A written statement of the challenge must be submitted to the Chair of the Academic Grievance Committee within five (5) business days prior to the scheduled hearing. The challenge of impartiality will be reviewed and accepted or denied by the Chair of the Academic Grievance Committee. In the event the impartiality of the Chair of the Academic Grievance Committee is challenged the Chair will appoint a temporary Chair from the Academic Grievance Committee faculty members to act on that challenge.

B. Step 2: The Chair will convene the Academic Grievance Committee within five business (5) days receipt of evidence from the Aggrieved Student and the faculty for the purpose of clarifying the Formal Procedure and process for the Academic Grievance Committee hearing.
   a. Each member of the Academic Grievance Committee and the support staff will be required to sign a Statement of Impartiality and Confidentiality (Attachment C). If any member is unable to sign this statement, he/she will automatically be disqualified from participation in the Academic Grievance Committee hearing and another faculty/student member will be appointed by the Chair of the Faculty Assembly.
b. A total of 4 members (faculty and student representatives) constitute a quorum of the Grievance Committee. All committee members have voice and vote. The chair of the committee has voice but only votes to break a tie.
c. Advocate and Ombudsperson are observers and do not have voice or vote.
d. Supporting individuals have voice but not vote.

C. Step 3: The Chair will designate a date and time for the formal hearing of the Academic Grievance Committee and communicate such to all parties involved. Every effort will be made to accommodate the schedules the Aggrieved Student and members of the committee in planning the formal hearing; however, the formal grievance must be processed in the semester following the issuance of the grade in dispute.

D. Step 4: The formal hearing will be held in accordance with the Academic Grievance Committee Meeting Membership, Structure, Protocol and Proceedings.

E. Step 5: Upon completion of the Academic Grievance hearing, the Academic Grievance Committee members will deliberate and formulate recommendations. Within two (2) business days of completion of deliberations, the Chair of the Academic Grievance Committee will deliver the audio tape of the meeting and Grievance Committee Recommendations with rationale (Attachment D) to the Dean or designee.

F. Step 6: Within five (5) business days of receiving the Academic Grievance Committee’s written recommendation, the Dean or designee will advise both parties [student and faculty member(s)] of the Dean’s decision and action to be taken. The decision of the Dean is final. At this point, the Formal Academic Grievance Procedure is concluded.

Edson College of Nursing and Health Innovation
Attachment A-1
Academic Communication Form

This form is to be initiated by the aggrieved student as the first step in the informal grievance process. The form is submitted to the faculty member(s) in the course within 5 business days of the alleged grievance. Following receipt of this form, the faculty will meet with the student within 5 days.

Concise statement by the student describing the concern or claim based upon an event or condition allegedly resulting from unfair application of college policies and procedures: (provide evidence to support the concern or claim) Include attachments as necessary to support the claim.

Response from faculty member(s) who allegedly applied the policies and procedures unfairly:

Summary of the student-faculty meeting to resolve the grievance:

Is the grievance resolved?  Yes  No

____________________________________________
Student signature  date

____________________________________________
Faculty signature  date

If the academic grievance is not resolved, the student may appeal to the appropriate Academic Program Director or Designee by forwarding this form and requesting a meeting. The meeting is to take place within 10 business days of the meeting with faculty.

A quorum of four (4) active members is required to conduct an Academic Grievance Committee hearing. Of the three (3) members, the Chair or Chair Elect, at least one (1) faculty member and at least one (1) student member
Appendix G – Blood-Borne Pathogens Policies

Policy 1:
An Edson College of Nursing and Health Innovation student who sustains an exposure to blood borne pathogens while performing a nursing student related function, will be afforded immediate, confidential medical evaluation and subsequent medical follow-up and prophylactic medical care in compliance with the Occupational Safety Health Administrations (OSHA) final Blood borne Pathogens Standard 1910:1030.

Policy 2:
Students with an exposure incident will be referred for follow-up at Arizona State University Student Health Services Center or they may choose a private physician or other clinical site. Monitoring will be done by the student’s healthcare provider according to OSHA guidelines at 3, 6, and 12 months. The student is responsible for all charges incurred.

OHSAs’s Definition of Determinants of Exposure:
2. Blood borne pathogens- pathogenic microorganisms that are present in human blood and can cause disease in humans. These pathogens include but are not limited to Hepatitis B Virus (HB) and Human Immunodeficiency Virus (HIV).
3. Occupational Exposure – reasonably anticipated skin, eye, mucous membrane or parenteral contact with blood or other potentially infectious materials; semen, vaginal secretions, cerebrospinal fluid, saliva in dental procedures, and any body fluid visibly contaminated with blood, and all body fluids in situations where it is difficult to differentiate between body fluids. (Note: Tears and sweat are excluded.)

Procedures:
For post-exposure evaluations and follow-up in accordance with OSHA Standard 1910: 1030:

1. The student shall immediately report the injury/exposure to the clinical instructor or supervisor on the unit so that an incident report can be initiated. Chances of contracting HIV from exposure is reduced by 80% if medications are started within 2 hours of exposure.

2. The student will go to the agency employee health department or other designated person or department which will:
   a. Investigate and document the circumstances surrounding the exposure incident;
   b. Arrange for testing the source patient after written informed consent is obtained for HBV and HIV. Consent shall be obtained by the patient’s attending
physician or designee. If consent is not obtained, the agency shall establish the legally required consent that cannot be obtained; and,
c. Provide the student the results of the sources patient’s testing, along with the laws and regulations concerning the disclosure of the patient’s identity and infectious status.

3. If the event requires immediate treatment the student will be referred for emergency care prior to going to the agency employee health department. The student is responsible for all expenses incurred.

4. The student shall be referred to the Arizona state University Student Health Services Center for OSHA designated post-exposure follow-up. The student may use another healthcare provider who follows current OSHA guidelines for post-exposure follow-up. If student chooses not to use Student Health then the following is the student’s responsibility.

a. If student uses another healthcare provider the following information must be evaluated on initial visit:
   - current health status
   - need for tetanus vaccine
   - Hepatitis B Immune status
   - need for HIV testing
b. Required follow-up care for:
   - Three month visit
     1. repeat HIV testing
     2. evaluate health status
     3. refer to private medical care if conversion occurs
   - Six month visit
     1. follow steps 1 through 3 of three month visit
   - Twelve month visit
     1. follow steps 1 through 3 of three month visit
     2. end follow up if no conversion

OSHA Standard 1910:1030 requires the record of the exposed student be kept for the duration of the status as a student plus thirty (30) years. These copies reside with the student and the student’s healthcare provider.

Approved Revised Policy by Standards 05/2002
Approved by Faculty Assembly 5/7/2001
Appendix H – Unusual Occurrence Policy

An unusual occurrence is any event of which a faculty is made aware and that has potential to result in harm to a student, or to others while in the Edson College of Nursing and Health Innovation or at a clinical site while the student is functioning in the capacity of a student nurse. The student is responsible for informing the faculty member of the occurrence as soon as possible after the occurrence. The faculty member and the student must document such occurrences.

Procedure:
The following procedure is to be followed when an unusual occurrence happens that involves a student.

1. Faculty member arranges for immediate care of the student as necessary. The student is to be referred to Student Health Services or the student’s healthcare provider of choice.
2. The student is responsible for all healthcare costs for her/himself incurred in treatment of said injury. The student’s healthcare costs cover both immediate care and any necessary follow-up care. The College is not financially responsible or any costs incurred by the student.
3. Complete a Report of Unusual Occurrence form that may be obtained from either the Student Services Office or the Program Office. The Report of Unusual Occurrence form is to be forwarded to the appropriate Program Director for review.
4. In addition, one copy of the Report of Incidence is to be kept by the student, and one copy is to be sent to the student’s file in Student Services Office.
5. If the student or person harmed declines immediate care or referral for follow-up care, this [declination] is to be noted on the Report of Unusual Occurrence form under ‘Other’, with an explanation.
6. If the student does not want to sign the form, the faculty member should complete it, note that the student has refused to sign, and provide the student with a copy.
7. Upon notification by the student of an unusual occurrence that involves potential or actual harm to the student, another person, or to agency product/property, the faculty member will meet with the student to determine the nature of the occurrence. The faculty member will then contact the nursing supervisor at the clinical site to complete the appropriate agency incident report.
8. Faculty member and student will complete the Edson College of Nursing and Health Innovation Report of Unusual Occurrence form.
9. The original is given to the student, one copy to the student file, and one copy to the appropriate Program Director’s office.
10. Faculty member will obtain a copy of agency incident report when possible and submit that report with the Edson College of Nursing and Health Innovation Unusual Occurrence form to the appropriate Program Director’s Office.
11. The Program Director’s Office will notify ASU Environmental Health & Safety / legal counsel regarding the event.
Appendix I – Reporting & Investigating Procedure

During the course of study, a student may observe behaviors in others that are considered an insult to academic and/or professional integrity. In the Edson College of Nursing and Health Innovation, one has the responsibility to report any questionable activity seen in the classroom or clinical setting. Personal responsibility is the beginning of the development of professionalism. Matters that violate the ABOR Student Code should be referred to the Office of Student Life and if personal safety is an issue, to law enforcement.

A suspected instance of violations of academic and/or professional integrity are to be referred to the course instructor, but allows students to consult with someone other than the instructor, who will conduct an investigation in a manner that protects the individual rights of the person(s) involved. Just as there are consequences for violations of academic and professional integrity, so too are there consequences for any student who makes intentionally false accusations.

Sanctions
If a course instructor concludes that a violation of academic and/or professional integrity has occurred, that instructor is obligated to meet with the student(s) involved. The instructor will inform him/her of the action that will be taken in accord with the designated consequences for the particular violation.

Student Appeal of Sanction
A student may appeal the consequences imposed for violation of academic or professional integrity by following the grievance procedures as established by the Edson College of Nursing and Health Innovation. Matters that violate the ABOR Student Code or ASU Academic Integrity Policy can be appealed as provided for in those policies.

Consequences for violations may range from a warning or lower grade on an assignment to expulsion from the University. The following are examples of consequences within the authority of the Edson College of Nursing and Health Innovation. Please note: violations of academic and professional integrity may have University as well as Edson College of Nursing and Health Innovation consequences.

Major violations of academic and/or professional integrity include, but are not limited to, the following:

<table>
<thead>
<tr>
<th>Violation</th>
<th>Consequence</th>

Maximum – Expulsion from the ECONHI. |                                                              |
| Falsifying any medical records, including intentional omissions. | Minimum – Receive an “E”/zero for the course.  
Maximum – Expulsion from the ECONHI. |                                                              |
| Falsifying attendance at a required agency, home visit, professional meeting or clinical experience. | Minimum – Receive an “E”/zero for the assignment.  
Maximum – Expulsion from the ECONHI. |                                                              |
| Modifying without faculty approval an examination, paper or report for the purpose of obtaining additional credit. | Minimum – Receive an “E”/zero for the test or assignment.  
Maximum – Expulsion from the ECONHI. |                                                              |
| Falsifying or misrepresenting data collection for an assignment, project or paper. | Minimum – Receive an “E”/zero for the test or assignment.  
Maximum – Expulsion from the ECONHI. |                                                              |
| Making unauthorized changes in any reported grade or official academic report | Minimum/Maximum – Expulsion from the ECONHI. |                                                              |
| Physical or verbal threats to clients, faculty, peers, and staff. | Minimum – Counseling.  
Maximum – Expulsion from the ECONHI. |                                                              |
| Offensive or abusive language to others. | Minimum – Counseling.  
Maximum – Expulsion from the ECONHI. |                                                              |
| Other violations of the Code for Nurses. | Minimum – Counseling.  
Maximum – Expulsion from the ECONHI. |                                                              |

Some offenses will be reported to the respective licensing bodies, in accordance with the State Nurse Practice Acts or to the appropriate administrative office or law enforcement agency.
Appendix J – American Association of Colleges of Nursing (AACN) – The Essentials of Master’s Education in Nursing (2011)

A complete description of the Essentials of Master’s education in Nursing (2011) can be found at: http://www.aacn.nche.edu/education-resources/MastersEssentials11.pdf

The Essentials of Master’s Education in Nursing are:
I. Background for Practice from Sciences and Humanities
II. Organizational and Systems Leadership
III. Quality Improvement and Safety
IV. Translating and Integrating Scholarship into Practice
V. Informatics and Healthcare Technologies
VI. Health Policy and Advocacy
VII. Interprofessional Collaboration for Improving Patient and Population Health Outcomes
VIII. Clinical Prevention and Population Health for Improving Health
IX. Master’s-Level Nursing Practice
Appendix K – National League for Nursing (NLN) - Nurse Educator Core Competencies (2005)

A complete description of the Nurse Educator Core Competencies can be found at: http://www.nln.org/professional-development-programs/competencies-for-nursing-education/nurse-educator-core-competency.

**Competency 1 – Facilitate Learning**
Nurse educators are responsible for creating an environment in classroom, laboratory, and clinical settings that facilitates student learning and the achievement of desired cognitive, affective, and psychomotor outcomes. To facilitate learning effectively, the nurse educator:

- Implements a variety of teaching strategies appropriate to learner needs, desired learner outcomes, content, and context
- Grounds teaching strategies in educational theory and evidence-based teaching practices
- Recognizes multicultural, gender, and experiential influences on teaching and learning
- Engages in self-reflection and continued learning to improve teaching practices that facilitate learning
- Uses information technologies skillfully to support the teaching-learning process
- Practices skilled oral, written, and electronic communication that reflects an awareness of self and others, along with an ability to convey ideas in a variety of contexts
- Models critical and reflective thinking
- Creates opportunities for learners to develop their critical thinking and critical reasoning skills
- Shows enthusiasm for teaching, learning, and nursing that inspires and motivates students
- Demonstrates interest in and respect for learners
- Uses personal attributes (e.g., caring, confidence, patience, integrity and flexibility) that facilitate learning
- Develops collegial working relationships with students, faculty colleagues, and clinical agency personnel to promote positive learning environments
- Maintains the professional practice knowledge base needed to help learners prepare for contemporary nursing practice
- Serves as a role model of professional nursing

**Competency 2 – Facilitate Learner Development and Socialization**
Nurse educators recognize their responsibility for helping students develop as nurses and integrate the values and behaviors expected of those who fulfill that role. To facilitate learner development and socialization effectively, the nurse educator:

- Identifies individual learning styles and unique learning needs of international, adult, multicultural, educationally disadvantaged, physically challenged, at-risk, and second degree learners
• Provides resources to diverse learners that help meet their individual learning needs
• Engages in effective advisement and counseling strategies that help learners meet their professional goals
• Creates learning environments that are focused on socialization to the role of the nurse and facilitate learners’ self-reflection and personal goal setting
• Fosters the cognitive, psychomotor, and affective development of learners
• Recognizes the influence of teaching styles and interpersonal interactions on learner outcomes
• Assists learners to develop the ability to engage in thoughtful and constructive self and peer evaluation
• Models professional behaviors for learners including, but not limited to, involvement in professional organizations, engagement in lifelong learning activities, dissemination of information through publications and presentations, and advocacy

Competency 3 – Use Assessment and Evaluation Strategies
Nurse educators use a variety of strategies to assess and evaluate student learning in classroom, laboratory and clinical settings, as well as in all domains of learning. To use assessment and evaluation strategies effectively, the nurse educator:
• Uses extant literature to develop evidence-based assessment and evaluation practices
• Uses a variety of strategies to assess and evaluate learning in the cognitive, psychomotor, and affective domains
• Implements evidence-based assessment and evaluation strategies that are appropriate to the learner and to learning goals
• Uses assessment and evaluation data to enhance the teaching-learning process
• Provides timely, constructive, and thoughtful feedback to learners
• Demonstrates skill in the design and use of tools for assessing clinical practice

Competency 4 – Participate in Curriculum Design and Evaluation of Program Outcomes
Nurse educators are responsible for formulating program outcomes and designing curricula that reflect contemporary health care trends and prepare graduates to function effectively in the health care environment. To participate effectively in curriculum design and evaluation of program outcomes, the nurse educator:
• Ensures that the curriculum reflects institutional philosophy and mission, current nursing and health care trends, and community and societal needs so as to prepare graduates for practice in a complex, dynamic, multicultural health care environment
• Demonstrates knowledge of curriculum development including identifying program outcomes, developing competency statements, writing learning objectives, and selecting appropriate learning activities and evaluation strategies
• Bases curriculum design and implementation decisions on sound educational principles, theory, and research
- Revises the curriculum based on assessment of program outcomes, learner needs, and societal and health care trends
- Implements curricular revisions using appropriate change theories and strategies
- Creates and maintains community and clinical partnerships that support educational goals
- Collaborates with external constituencies throughout the process of curriculum revision
- Designs and implements program assessment models that promote continuous quality improvement of all aspects of the program

**Competency 5 – Function as a Change Agent and Leader**
Nurse educators function as change agents and leaders to create a preferred future for nursing education and nursing practice. To function effectively as a change agent and leader, the nurse educator:
- Models cultural sensitivity when advocating for change
- Integrates a long-term, innovative, and creative perspective into the nurse educator role
- Participates in interdisciplinary efforts to address health care and educational needs locally, regionally, nationally, or internationally
- Evaluates organizational effectiveness in nursing education
- Implements strategies for organizational change
- Provides leadership in the parent institution as well as in the nursing program to enhance the visibility of nursing and its contributions to the academic community
- Promotes innovative practices in educational environments
- Develops leadership skills to shape and implement change

**Competency 6 – Pursue Continuous Quality Improvement in the Nurse Educator Role**
Nurse educators recognize that their role is multidimensional and that an ongoing commitment to develop and maintain competence in the role is essential. To pursue continuous quality improvement in the nurse educator role, the individual:
- Demonstrates a commitment to life-long learning
- Recognizes that career enhancement needs and activities change as experience is gained in the role
- Participates in professional development opportunities that increase one’s effectiveness in the role
- Balances the teaching, scholarship, and service demands inherent in the role of educator and member of an academic institution
- Uses feedback gained from self, peer, student, and administrative evaluation to improve role effectiveness
- Engages in activities that promote one’s socialization to the role
- Uses knowledge of legal and ethical issues relevant to higher education and nursing education as a basis for influencing, designing, and implementing policies and procedures related to students, faculty, and the educational environment
- Mentors and supports faculty colleagues
Competency 7 – Engage in Scholarship
Nurse educators acknowledge that scholarship is an integral component of the faculty role, and that teaching itself is a scholarly activity. To engage effectively in scholarship, the nurse educator:

- Draws on extant literature to design evidence-based teaching and evaluation practices
- Exhibits a spirit of inquiry about teaching and learning, student development, evaluation methods, and other aspects of the role
- Designs and implements scholarly activities in an established area of expertise
- Disseminates nursing and teaching knowledge to a variety of audiences through various means
- Demonstrates skill in proposal writing for initiatives that include, but are not limited to, research, resource acquisition, program development, and policy development
- Demonstrates qualities of a scholar: integrity, courage, perseverance, vitality, and creativity

Competency 8 – Function within the Educational Environment
Nurse educators are knowledgeable about the educational environment within which they practice and recognize how political, institutional, social and economic forces impact their role. To function as a good “citizen of the academy,” the nurse educator:

- Uses knowledge of history and current trends and issues in higher education as a basis for making recommendations and decisions on educational issues
- Identifies how social, economic, political, and institutional forces influence higher education in general and nursing education in particular
- Develops networks, collaborations, and partnerships to enhance nursing’s influence within the academic community
- Determines own professional goals within the context of academic nursing and the mission of the parent institution and nursing program
- Integrates the values of respect, collegiality, professionalism, and caring to build an organizational climate that fosters the development of students and teachers
- Incorporates the goals of the nursing program and the mission of the parent institution when proposing change or managing issues
- Assumes a leadership role in various levels of institutional governance
- Advocates for nursing and nursing education in the political arena
