Introduction and Overview

This advancement guide is designed to help prospective students through the application process into Arizona State University’s (ASU) clinical nursing programs starting in summer 2022 and fall 2022 at the Edson College of Nursing and Health Innovation. This guide contains information on applying to the following clinical nursing programs: the Traditional Prelicensure Clinical Nursing Program and the Accelerated BSN. Applicants should review this document carefully to ensure an understanding of the advancement process and requirements for each of the clinical nursing programs for which they plan to apply.

The **Traditional Prelicensure Clinical Nursing Program** — also referred to as the Traditional BSN — is a four-semester program and requires the completion of 15-16 credit hours per semester, including theory, lab and clinical rotations.

The **Accelerated BSN** is a 12-month, full-time program located at ASU@Lake Havasu. The program requires 50 credit hours of nursing coursework over three consecutive terms (fall, spring, and summer), including theory, lab, and clinical rotations. Travel to the Downtown Phoenix campus will be necessary for immersion. Currently, it is expected that week-long immersions (4-5 days each) will take place three times each semester so that students can utilize our simulation center. Students will be provided with dates at the orientation.

Students are encouraged to treat participation in either program track as equivalent to the demands of full-time employment. There are many settings in which nursing students gain experience — hospitals, nursing homes, public health and community agencies, private homes, school settings, and clinics. Clinical rotations will take place at various sites. Students are responsible for providing their own transportation to clinical locations. Clinical and classroom experiences may be scheduled during the daytime, evening, or on weekends seven days a week, and maybe for as long as 12-hour time periods. Students can expect their clinical schedules to vary each semester, and even within semesters. Because clinical placement is not determined until each semester begins, faculty and staff cannot inform students of their clinical schedule in advance. Due to the high demand and limited supply of clinical practice experiences, we require flexibility in scheduling these learning experiences.

Following successful completion of either clinical nursing program, a student will earn a Bachelor of Science in Nursing (BSN) and will be eligible to sit for National Council Licensure Examination for Registered Nurses (NCLEX-RN).

The Edson College of Nursing and Health Innovation prepares graduates for excellence upon entering the workplace. Since certification and licensure requirements vary by profession and from state to state, we recommend that you visit Professional Licensure ([admission.asu.edu/academics/licensure](http://admission.asu.edu/academics/licensure)) to determine the requirements of individual state licensures or national certifications.

In addition to tuition and fees set by the university, students in all clinical nursing programs are subject to program fees each semester. Students may estimate tuition and fees at the following link: [students.asu.edu/tuition](http://students.asu.edu/tuition).

This cycle, applicants have **three** cohort options:

Traditional Prelicensure Clinical Nursing Program

Prerequisite Courses
There are 17 prerequisite courses (also referred to as critical courses) that students must complete to be eligible for advancement. Refer to Appendix A for a list of course requirements and policies.

Advancement Pathways
Students earn advancement into the Traditional BSN in two ways: direct admission or the competitive application process. Students who are directly admitted into the nursing major must meet specific standards each semester to maintain guaranteed advancement into the Traditional BSN. Remaining spaces - or those spaces not filled by direct admission students - are earned through the competitive application process. There is no guarantee that there will be remaining spaces available through the competitive process.

Direct Admission
Some applicants earned direct admission status upon entering ASU as a freshman nursing major and must meet continuing eligibility criteria each semester to maintain direct admission. If direct admission is retained throughout the advancement process, students are guaranteed placement into the clinical nursing program. Advancement of qualified direct admission students will take place within one year of the semester when all 17 critical courses are completed. Direct admission students are required to submit a Clinical Nursing Advancement Application by the advancement deadline. On the application, students will indicate their cohort preference (summer or fall); however, placement in preferred cohort is not guaranteed. If more direct admission students request placement in a specific cohort than spaces are available, cohort placement will be determined by random selection.

Continuing Eligibility Criteria
• Enroll in the courses following the published course sequence on the major map.
• Courses taken at institutions other than ASU, during the required semester, must have the grades recorded in the ASU system by the final grading deadline (degree conferral dates) per the ASU Academic Calendar.
• 3.50 minimum critical (prerequisite) course GPA each semester.
• Grades of C or better in critical (prerequisite) courses.
• Successful completion of all Health and Safety Requirements.

Test of Essential Academic Skills (TEAS)
While direct admission students are not required to take the TEAS, opting to complete the exam may provide a safeguard if a student is concerned about meeting the 3.50 semester GPA requirement by the end of spring 2022. By opting to take the TEAS before the application deadline, a direct admission student may still be considered a competitive applicant should their GPA drop below a 3.50 semester GPA in spring 2022. Students can review specific TEAS requirements in Appendix C. If a student loses direct admission and opted to take the TEAS, they can be considered a competitive applicant using the Advancement Score Calculation. If the calculated advancement score is higher than the lowest score advanced for the cycle, the student may retain their space, although they may not receive the same cohort placement. If the calculated advancement score is not higher than the lowest score advanced, however, the student will forfeit their space.
Competitive Application Process

After direct admission students are placed into the program, any remaining spaces will be offered to competitive applicants with the highest advancement scores. The advancement score calculation is 50% Select GPA and 50% Test of Essential Academic Skills (TEAS) score. At this time, no other academic, professional or philanthropic items are considered.

Competitive applicants must be in academic good standing at ASU to apply. There is no guarantee that there will be remaining spaces available through the competitive application process. Competitive applicants who have applied for advancement in an earlier cycle and wish to be considered in a new cycle are not given preference in the advancement process. There is no limit on the number of times a student can apply for advancement, but students who are reapplying should meet with an Edson College academic advisor to discuss academic options.

Note: The Traditional BSN is intended for students earning their first bachelor’s degree. Applicants who have already completed a bachelor’s degree should consider alternate nursing pathways, including the Accelerated BSN or MS Nursing (Entry to Nursing Practice). Applicants with a bachelor’s degree will only be considered if spaces remain after all eligible 1st bachelor's degree-seeking students are placed.

Select GPA and Prerequisite GPA

Grade eligibility for advancement is measured in two ways: the first is called the “Select GPA,” and the second is called the “Prerequisite GPA.” For eligibility, both GPAs must meet or exceed 3.25 for eligibility - though applicants who advance typically have much higher GPAs.

Plus (+) and minus (-) grades are not used in either calculation (e.g., a “B+” grade becomes a “B,” an “A-” grade becomes an “A,” etc.). Grades earned at ASU and other colleges are given the same weight. Per university policy, students may not repeat an undergraduate course for credit when a grade of “C” or higher is earned. Please speak with an Edson College advisor about replacement course options.

1. The Select GPA must meet or exceed 3.25 and is calculated from 13 of the 17 critical course grades. An applicant may have up to four critical courses in progress at the time of application, but only completed courses on file with ASU may be used in the Select GPA. Each applicant identifies which courses to use in the Select GPA on the Gold Course Information Worksheet. Review Appendix E for an example of how to fill out the Course Information Worksheet. The 13 courses used to compute the Select GPA must include:
   1. First-Year Composition courses. ENG 101 and ENG 102 or approved equivalent courses.
   2. Three of the four required laboratory science courses (BIO 201, BIO 202, CHM 101, and MIC 205/206 or approved equivalent courses). Science courses (including HCR 240) must have been taken within 7 years of the semester in which the Traditional BSN will start (e.g., fall 2015 or thereafter).
   3. Eight (8) additional critical courses.

2. After all 17 courses are completed in spring 2022, a Prerequisite GPA is calculated and must meet or exceed 3.25 to retain a space in the program. All 17 critical courses are included in this GPA calculation which occurs May 9, 2022.
Test of Essential Academic Skills (TEAS)
All competitive applicants must take the TEAS exam and have official scores on file with ASU by January 31, 2022. Refer to Appendix C for information on the TEAS including exam topics, requirements and registration.

Refer to Appendix D for additional details on advancement score calculation.

Accelerated BSN – ASU@Lake Havasu

Advancement Pathways
Both postbaccalaureate applicants and first-bachelor’s degree seeking applicants will be considered for the Accelerated BSN through the competitive application process. Eligibility requirements for postbaccalaureate and first-bachelor’s degree seeking students vary. Read below for the requirements.

Postbaccalaureate Applicants
To be considered a postbaccalaureate applicant, the applicant must have a conferred bachelor’s degree from a regionally accredited college or university on file with ASU by the application deadline. Postbaccalaureate applicants may also be completing an undergraduate degree from ASU by August 2022.

Postbaccalaureate Requirements
- Must have a conferred bachelor’s degree from a regionally accredited college or university on file with ASU by February 1, 2022 OR if completing an undergraduate degree from ASU by August 2022, the degree audit (DARS) must show that all requirements are in progress at ASU and will be completed by July 10, 2022. It is the student’s responsibility to contact their academic unit well before the February 1st deadline to ensure the degree audit is not missing any coursework. Edson College will not contact other units to verify coursework completion. In progress degrees from other regionally accredited colleges/universities are not eligible for consideration into the Accelerated BSN.
- 3.00 Select GPA by February 1, 2022 and a 3.00 Prerequisite GPA by July 10, 2022.
- Three of the four lab science courses (BIO 201, BIO 202, CHM 101, and MIC 205/206) and at least five other critical courses must be completed by February 1, 2022. If transferring courses to fulfill these requirements, official transcripts must be on file with ASU Admission Services by the deadline.
- Enrolled in the remaining two or fewer critical courses in spring or summer 2022, and any unfulfilled general studies – including First-Year Composition, all university general studies and awareness areas (excluding upper division Literacy and upper division Humanities/Social Behavioral Science).
- Admitted to ASU by February 1, 2022 as a degree-seeking undergraduate student, eligible to enroll for fall 2022 and in academic good standing.
- Valid TEAS score on file with ASU by January 31, 2022 (score must be less than one year old on February 1, 2022).
- Applicants with an international degree (earned from a non-U.S. institution) must be evaluated as equivalent to a U.S. bachelor’s degree by ASU and Edson College. To request this evaluation, send your official transcripts to ASU Admission Services and email AcceleratedBSN@asu.edu. A third-party evaluation will not be accepted. If deemed equivalent, students must meet with an Edson College academic advisor to confirm all of the following will be completed before the Accelerated BSN program begins in August 2022: minimum of 70 credit hours, First-Year
Composition, all university general studies and awareness areas (excluding upper division Literacy and upper division Humanities/Social Behavioral Science).

**Postbaccalaureate Prerequisites**

There are 10 prerequisite courses (also referred to as critical courses) that students must complete to be eligible for advancement. Refer to Appendix B for a list of course requirements and policies.

**Tuition & Fees – Postbaccalaureate Students**

Students attending ASU@Lake Havasu will be charged Lake Havasu location tuition rates and the Edson College fee each enrollment term. Tuition for the Lake Havasu location is lower than tuition for the Downtown Phoenix campus. A $5,500 per semester program fee is assessed for postbaccalaureate students pursuing the Accelerated BSN. Refer to students.asu.edu/tuition. Applicants are encouraged to file a FAFSA with ASU for fall 2022 and to contact Financial Aid and Scholarship Services to discuss financial aid options for postbaccalaureate students.

**First-Bachelor's Degree Seeking Applicants**

Applicants currently enrolled in their first bachelor’s degree at ASU who will not complete their degree by August 2022 are eligible for consideration into the Accelerated BSN as a degree completion pathway. Applicants are also encouraged to apply to the Traditional BSN (note: there are different deadlines and requirements for the Traditional BSN).

**First-Bachelor's Degree Seeking Requirements**

- Current ASU/Edson College undergraduate students must be in academic good standing and eligible to enroll in fall 2022.
- Must have a minimum of 70 credit hours completed before the Accelerated BSN program begins in August 2022.
- Must complete all university general studies and awareness areas (excluding upper division Literacy and upper division Humanities/Social Behavioral Science) before the Accelerated BSN program begins in August 2022.
- 3.25 Select GPA by February 1, 2022 and a 3.25 Prerequisite GPA by July 10, 2022.
- First-Year Composition courses (ENG 101 and ENG 102), three of the four lab science courses (BIO 201, BIO 202, CHM 101, and MIC 205/206), and at least eight other critical courses completed by February 1, 2022. If transferring courses to fulfill these requirements, official transcripts must be on file with ASU Admission Services by the deadline.
- Enrolled in the remaining four or fewer critical courses in spring or summer 2022 at ASU.
- Valid TEAS score on file with ASU by January 31, 2022 (score must be less than one year old on February 1, 2022).

**First-Bachelor’s Degree Seeking Prerequisites**

There are 17 prerequisite courses (also referred to as critical courses) that students must complete to be eligible for advancement. Refer to Appendix A for a list of course requirements and policies.

**Tuition & Fees and Scholarships**

First-degree seeking students attending ASU@Lake Havasu will be charged Lake Havasu location tuition rates and the Edson College fee each enrollment term. Tuition for the Lake Havasu location is lower than tuition for the Downtown Phoenix campus. A $385 per semester program fee is assessed for first-bachelor’s degree seeking students pursuing the Accelerated BSN. Please refer to
Students with merit scholarships will be able to continue using their awards. Awards will be prorated based on Havasu tuition rates.

**Selection**

Applicants are selected for the Accelerated BSN through the competitive application process based on an advancement score. The advancement score calculation is 50% Select GPA and 50% Test of Essential Academic Skills (TEAS) score. At this time, no other academic, professional or philanthropic items are considered.

Current ASU students who are completing a degree by August 2022 or alumni with completed degrees in the following Edson majors and meet the minimum eligibility criteria will be given preference for up to 50% of available seats in the Accelerated BSN each cycle: Community Health, Health Care Coordination, Health Care Compliance and Regulations, Health Entrepreneurship and Innovation, and Integrative Health.

**Select GPA and Prerequisite GPA**

Grade eligibility for advancement is measured in two ways: the first is called the “Select GPA,” and the second is called the “Prerequisite GPA.” **For eligibility, both GPAs must meet or exceed 3.00 for postbaccalaureate applicants or 3.25 for Edson College first-bachelor’s degree seeking applicants** - though applicants who advance typically have much higher GPAs. Plus (+) and minus (-) grades are not used in either calculation (e.g., a “B+” grade becomes a “B,” an “A-” grade becomes an “A,” etc.). Grades earned at ASU and other colleges are given the same weight. Per university policy, students may not repeat an undergraduate course for credit when a grade of “C” or higher is earned. Please speak with an Edson College advisor about replacement course options.

The Select GPA must meet the minimum required GPA by February 1, 2022.

1. **Postbaccalaureate Applicants** – Select GPA is calculated from 8 of the 10 critical course grades – including three of the four required lab sciences and five additional courses. Science courses (including HCR 240) must have been taken within 7 years of the semester in which the clinical nursing program will start (e.g., fall 2015 or later).

   Applicants may have up to two classes in progress or planned for spring or summer 2022 while an application is being considered, though only completed courses may be used in the Select GPA. Each applicant identifies which courses to use in the Select GPA on the Maroon Course Information Worksheet. Review Appendix E for an example of how to fill out the Course Information Worksheet.

2. **First-Bachelor’s Degree Seeking Applicants** – Select GPA is calculated from 13 of the 17 critical course grades – including First-Year Composition courses (ENG 101 and ENG 102), three of the four required lab science courses and eight additional courses. Science courses (including HCR 240) must have been taken within 7 years of the semester in which the clinical nursing program will start (i.e., fall 2015 or later).

   Applicants may have up to four classes in progress or planned for spring or summer 2022 at ASU while an application is being considered, thought only completed courses may be used in the Select GPA. Each applicant identifies which courses to use in the Select GPA on the Gold Course Information Worksheet. Review Appendix E for an example of how to fill out the Course Information Worksheet.
The Prerequisite GPA is calculated after all prerequisites are completed in spring or summer 2022 and must meet or exceed the minimum GPA to retain a space in the program. All prerequisite courses are included in this GPA calculation which occurs on July 10, 2022.

Test of Essential Academic Skills (TEAS)
All competitive applicants must take the TEAS exam and have official scores on file with ASU by January 31, 2022. Refer to Appendix C for information on the TEAS including exam topics, requirements and registration.

Refer to Appendix D for additional details on advancement score calculation.

Admission to ASU and Transfer Coursework

Overview
Advancement into the clinical nursing programs – including the Traditional BSN and the Accelerated BSN – is a two-step process:

1. Earn admission to ASU as an undergraduate degree-seeking student, preferably a community health major.
2. Earn advancement into the clinical nursing program through this advancement process.

Applying to Arizona State University
Applicants must be admitted to ASU for the summer or fall 2022 enrollment term and eligible to enroll by the February 1, 2022 advancement deadline. It is critical for all applicants to confirm that their admission and enrollment eligibility is valid for summer or fall 2022. Accordingly, it is recommended to apply to ASU 2-3 months before the February 1, 2022 advancement deadline.

1. **Apply to ASU.** Complete an application to the university: students.asu.edu/apply
2. **Send official transcripts.** For admission purposes, ASU requires official transcripts from all previous institutions attended. Please contact the registrar's office at any colleges or universities you have attended and request for official transcripts to be sent directly to Admission Services. This should be done well in advance of the advancement deadline to account for processing time. More information on sending transcripts to ASU can be found at admission.asu.edu/transcripts.
3. **Send test scores (if applicable).** Students who have Advanced Placement (AP) or CLEP credit must contact collegeboard.org to send scores to ASU, and International Baccalaureate (IB) scores can be sent directly to ASU via ibo.org.

In-Progress Prerequisite Coursework

**Traditional BSN Applicants: Final Grades Due to ASU by May 9, 2022**
**Accelerated BSN Applicants: Final Grades Due to ASU by July 10, 2022**

Applicants who are taking their final prerequisite courses must disclose on the application where they are taking the coursework and course end dates.

**Traditional BSN Applicants** – If any remaining required coursework is being completed outside of ASU in spring 2022, the following guidelines must be followed:
1. After spring 2022 grades have been posted, request for official transcripts to be sent to ASU Admission Services. admission.asu.edu/transcripts
2. Verify that the final transfer course grades have posted at ASU no later than the deadlines listed above to retain eligibility.

**Postbaccalaureate Accelerated BSN Applicants** – If any remaining required coursework is being completed outside of ASU in spring or summer 2022, the following guidelines must be followed:

1. After spring or summer 2022 grades have been posted, request for official transcripts to be sent to ASU Admission Services. admission.asu.edu/transcripts
2. Verify that the final transfer course grades have posted at ASU no later than the deadlines listed above to retain eligibility.

**First-Degree Accelerated BSN Applicants** – Remaining required coursework, if any, must be completed at ASU in spring or summer 2022.

**IMPORTANT NOTE:** Maricopa County Community College District offers courses of varying lengths with multiple start and end dates. Students completing remaining prerequisite courses in spring or summer 2022 outside of ASU must be careful to choose courses with an end date that allows enough time for official transcripts with final grades to be received at ASU by the deadlines listed above.
Confused if you need to apply to ASU? Follow the chart below.

**Note:** Students admitted for summer 2022 are eligible to enroll in fall 2022. Students admitted for fall 2022 are eligible to enroll in summer 2022. Students must be admitted to ASU and eligible to enroll in the summer or fall 2022 terms by the advancement application deadline.

Submitting the Advancement Application

The clinical nursing advancement application must be submitted online by **February 1, 2022 by 11:59 pm AZ time.** Applications are time-stamped to confirm on-time submission. Late applications will only be considered on a space-available basis. The online advancement application will be available in early January 2022 at the following link: [Clinical Nursing Advancement Application](#).

Before beginning the advancement application, students must:

1. Be admitted to ASU for summer or fall 2022 as a degree-seeking undergraduate student. Confirm with Admission Services at 480-965-7788.
2. Ensure all official transcripts for completed coursework are on file with grades posted at ASU. Students may check their transfer coursework by using the Transfer Credit Report located on My ASU: (My ASU>Grades & Transcripts>Transcripts & Test Scores>Transfer Credit Report).
3. Have a valid TEAS score on file with ASU.
4. Complete and save the Course Information Worksheet (see example in Appendix E).
5. It is **strongly recommended** that all applicants review their application materials with an Edson College advisor before submitting the advancement application. To schedule an advising appointment, use the online appointment scheduler or call (602) 496-0888.

Once steps one through five are complete:

6. Complete and submit the online application located at the following link: [Clinical Nursing Advancement Application](#) (available early January 2022).

Communication Timeline for Advancement

**Notification of Advancement Status by March 15, 2022**

Communication with students throughout the advancement process will be done via ASU email. It is the applicant’s responsibility to ensure proper access to their ASU e-mail account, and that is accessed, read, and acted upon promptly. It is the applicant’s responsibility to seek assistance from the academic advising office if communication is not received.

Notification of advancement will be sent via email to ASU email addresses. Students will receive one of four notifications:

- **Provisional Advancement Status**: given to students with all eligibility items satisfied and an advancement score above the cut-off. There are additional Health and Safety Requirements (see Appendix F) that must be fulfilled before students are fully qualified for advancement.
- **Alternate Status**: given to a select group of students with an advancement score just below the cut-off. If students higher on the advancement list decline or forfeit their spaces, alternates will advance in order of highest advancement score. If a student does not advance off the alternate list, they will have to reapply to be considered for a future application cycle. The college does not disclose a student’s position on the alternate list. Students who are identified as alternates will be prompted to complete the Health and Safety Requirements (see Appendix F) to preserve consideration. If an alternate does not comply, they will forfeit their position as an alternate.
- **Denied Advancement**: given to students who are below the cut-off score, are not on the alternate list and/or did not meet advancement criteria.
- **Withdrawn from Consideration**: given to students who do not meet all of the application requirements.
Provisional Advancement

Students who earn provisional advancement have a space secured in the clinical nursing program indicated on their provisional advancement notice. Provisional advancement status will be forfeited if a student is unable to do any of the following:

- Complete required documentation.
- Earn grades of "C" or better in final prerequisite/critical courses by deadline provided.
- Meet the minimum prerequisite GPA requirement (calculated once all prerequisites are complete or May 9, 2022 (Traditional BSN) and July 10, 2022 (Accelerated BSN) – whichever is soonest).
- Complete the Health and Safety Requirements – including passing the background check, passing the drug and alcohol screening, and submitting health clearance.
- Direct Admission students only – Meet Continuing Eligibility Criteria

Health and Safety Requirements

Due April 1, 2022
The Health and Safety Requirements – described in detail in Appendix F – are due approximately two weeks after a student is notified of advancement. April 1, 2022 is the expected deadline and is subject to change. A final deadline will be provided in each student’s notification of advancement status. To meet the deadline, advancement applicants should begin collecting the necessary documentation for Health and Safety Requirements as early as possible – preferably during the application process so they are ready to submit when required. Some requirements may take up to 6 weeks (or more) to complete.

Successful Completion of Prerequisite Courses

Traditional BSN Applicants: Final Grades Due to ASU by May 9, 2022
Accelerated BSN Applicants: Final Grades Due to ASU by July 10, 2022
Students must successfully complete all prerequisite courses with a grade of a "C" or better and meet the minimum Prerequisite GPA for the program of advancement. If enrolled in any of the final prerequisite/critical classes outside of ASU, ASU must have your official transcripts no later than the deadline listed above. It is the student’s responsibility to verify that Admission Services has received official transcripts. Failure to have transcripts to ASU by the deadline will result in forfeiture of space in the clinical nursing program.

Direct admission students advancing into the Traditional BSN must also meet the 3.50 ASU semester GPA for spring 2022 to retain their space.

Prelicensure Welcome Meeting

Date to be Determined ~ Summer (April 2022) and Fall (May/June 2022)
Provisionally advanced students are required to attend a Prelicensure Welcome Meeting before their program start date. The welcome will provide an overview of the prelicensure program, clinical dress code, necessary textbooks, uniform and equipment requirements.
APPENDIX A: Prerequisite Courses for Traditional BSN and Accelerated BSN (First-Degree Applicants)

These are the prerequisite courses for the following two groups of applicants:

- All Traditional BSN applicants
- All first-degree seeking applicants to the Accelerated BSN

Transfer Coursework

All transfer coursework must be evaluated and approved by the Transfer Guide before the advancement deadline. If a transfer course is not deemed equivalent, students are expected to meet with an Edson College academic advisor before the advancement deadline to discuss additional options (a petition for substitution might be possible).

Course Repeat Policy

Per university policy, students may not repeat an undergraduate course for credit when a grade of “C” or higher is earned. Please speak with an Edson College academic advisor about replacement course options.

Science Course Expiration

Science courses marked with an asterisk (*) in the chart above – including BIO 201, BIO 202, CHM 101, MIC 205/MIC 206, and HCR 240 – must have been taken within 7 years of the semester in which the clinical nursing program will start (i.e., fall 2015 or thereafter). Please speak with an Edson College academic advisor about expired lab science course options.
APPENDIX B: Prerequisite Courses for Accelerated BSN
(Postbaccalaureate Applicants)

These are the prerequisite courses for the following group of applicants:
- All postbaccalaureate applicants to the Accelerated BSN

## Prerequisite/Critical Courses

### Transfer Coursework

All transfer coursework must be evaluated and approved by the Transfer Guide before the application deadline. If a transfer course is not deemed equivalent, students are expected to meet with an Edson College academic advisor before the advancement deadline to discuss additional options (a petition for substitution might be possible).

### Course Repeat Policy

Per university policy, students may not repeat an undergraduate course for credit when a grade of "C" or higher is earned. Please speak with your academic advisor about replacement course options.

### Science Course Expiration

Science courses marked with an asterisk (*) in the chart above – including BIO 201, BIO 202, CHM 101, MIC 205/MIC 206, and HCR 240 – must have been taken within 7 years of the semester in which the clinical nursing program will start (i.e., fall 2015 or thereafter). Please speak with an Edson College academic advisor about expired lab science course options.
APPENDIX C: Test of Essential Academic Skills (TEAS)

All competitive applicants must take the TEAS exam by January 31, 2022. It is strongly recommended that applicants take the exam through ASU’s University Office of Evaluation and Educational Effectiveness. For tests taken outside of ASU, applicants must contact ATI Testing to request that an official transcript be sent and received by ASU no later than January 31, 2022.

The TEAS measures essential skills in reading, mathematics, science, and English language, and usage. Applicants are allowed one attempt at the TEAS per application cycle unless a failing score below 58.7% is earned. If a student earns less than 58.7%, one retest is permitted; however, the student must wait for a minimum of 30 days between tests, and the second attempt must be on or before January 31, 2022. For example, if a student takes the TEAS on December 1, 2021 and earns a 48.9%, the TEAS could be attempted a second time on any testing date starting December 31, 2021, but no later than January 31, 2022. Scores are valid up to one year from when a student took the test (score must be less than one year old on February 1, 2022). Students must confirm with their Edson College academic advisor whether a TEAS score will be valid for a second application cycle.

Application cycles are defined as:
- February 1 – August 31 (for September 1 deadline)
- September 1 – January 31 (for February 1 deadline)

Registering for the TEAS at ASU
Applicants are encouraged to reserve a test date early as reservations fill quickly, and seats are limited.

1. Registration and information regarding cost, format, requirements, special accommodations, parking, and more can be found through the following website: https://uoeee.asu.edu/exam/TEAS
2. Before arriving to take the exam, students need to create an account with ATI. Please go to www.atitesting.com and click on “Create an Account.” Under the institution section, please note that Arizona State University is listed as "AZ State U". Remember the login ID and password, as students will need to enter this information the day of the examination.

Preparing for the TEAS
Students should adequately prepare for the TEAS before their testing date. Preparation materials can be found through the testing publisher, ATI Testing, at https://atitesting.com.
APPENDIX D: Advancement Score Calculation

The advancement score calculation is 50% Select GPA and 50% TEAS score. The maximum advancement score a student can earn is a 2.000, which is a 4.000 Select GPA and 100% TEAS score. All competitive applicants requesting advancement are ranked from highest to lowest advancement score. Students are then assigned spaces based on their ranking until all vacant spaces are filled. In the event of an advancement score tie, admission will be determined by random selection.

**Note:** For the Accelerated BSN, first-round preference will be given to students who are completing degrees by August 2022 or who have completed degrees in the following majors at ASU: Community Health, Health Care Coordination, Health Care Compliance and Regulations, Health Entrepreneurship and Innovation, and Integrative Health. Following the first-round selection process of up to 50% of available seats, remaining spaces will be offered to applicants with the highest advancement scores – with next priority to postbaccalaureate applicants and then Edson College first-degree seeking applicants.

### Select GPA

Based on your desired clinical nursing program and advancement pathway, identify which eligible courses will be used in the “Select GPA” and enter course information in the designated spaces on the Course Information Worksheet. The Course Information Worksheet will calculate a Select GPA from the information entered. The Select GPA is converted to a 1-point scale by dividing by 4.000. For example, a Select GPA of 3.832 will be divided by 4.000 to be converted to 0.958 out of a possible 1.000. Only courses completed and on file with ASU by February 1, 2022 will be considered.

### TEAS Score

The TEAS score is also converted to a 1-point scale. To calculate the score, divide the TEAS score by 100 for the point value. A passing TEAS score can range from 58.7% to 100%, which is converted to a 0.587 to 1.000, respectively. For example, if a student achieves an 87.3% on the TEAS that student will earn 0.873 points out of a possible 1.000.

### APPENDIX E: Course Information Worksheet (continued)

#### Maroon Course Information Worksheet – Example

Please read carefully. This worksheet must be attached to the Online Nursing Application. Failure to provide accurate or complete information will be in violation of the academic integrity policy, resulting in the forfeiture of your application.

**Directions:** Please fill out the form completely using the most current version of Microsoft Excel. You must include information about all 10 prerequisite courses. The worksheet is divided into specific sections to organize information into columns labeled "Course Number" and "ASU Course Requirement." Enter each course's details, ensuring that the information is accurate and complete.

Click on each section for additional instructions. For reference, there is an instruction sheet, and a sample example worksheet provided in the next page below. You should refer to your QR code when entering course details.

Converted Select GPA (Select GPA/4):

| GPA/4 | 0.9444 |

Advancement Score: 1.86144
APPENDIX E: Course Information Worksheet (continued)

In-progress courses cannot be used in calculating the Select GPA as these courses would still be in progress when decisions for advancement are made. Only courses completed with grades on file with ASU by February 1, 2022 can be considered in the Select GPA.

Applications will NOT be considered for students who fail to have official transfer transcripts sent to ASU Admission Services or to verify that the transcripts have been posted by the provided deadlines.

Completing the Course Information Worksheet

When filling out the application, students must provide the following information on all prerequisite/critical courses:

**Course Prefix & Number.** List the course and prefix of the course taken to fulfill an ASU requirement, regardless of where the course was taken. For example, if FON 241 was taken for NTR 241, then write “FON 241” in that column. If CHM 151 and 151L were taken for CHM 101, write CHM 151 and CHM 151L in the respective spaces.

Students who took a replacement course should write the course prefix and number in the “Course Prefix & # Taken” column. For example, if ENG 217 was taken to replace the grade for ENG 101, then type “ENG 217” in the “Course Prefix & Number Taken” cell for ENG 101.

**Final Grade.** Do not include plusses (+) or minuses (-), only whole grades. Only list earned grades. Do not write in expected grades.

**College/University.** Type the institution where each course was taken.

**Credit Hours.** Students must provide the number of credit hours for each course. For transferred lab science courses, indicate the lecture and lab credits as listed on your transcripts. For example, chemistry taken at Mesa Community College would be listed as “CHM 130”, for 3 credits, and “CHM 130LL” for 1 credit and the grade listed for each. Lab science courses taken at a college where the lecture and lab were combined into 4 credits will be reported with the grade for the course on the top line and leave blank the credit-hour box next to the lab.

- **Courses limited to 3 credit hours:** CDE 232, ENG 101, ENG 102, HCR 210, HCR 220, HCR 230, HU/SB course, Math, NTR 241, PSY 101, Elective, and Statistics.
- **Courses limited to 4 credit hours:** BIO 201, BIO 202, CHM 101, MIC 205/206, and HCR 240.
- Courses that exceed the above credit hour limit will be adjusted to reflect the apportioned hours.
  - Example 1: If you completed a 4 credit hour PSY 101 course, you will put 3 credit hours on your Course Information Worksheet, since there is a credit limit for this class.
  - Example 2: If you completed a 5 credit hour BIO 202 course, you will put 4 credit hours on your Course Information Worksheet, since there is a credit limit for this class.
- Courses that fall short of the credit hour limits will be used at face value (e.g., 2.67 hours).

**Course Completion.** List the semester and year the course was completed. If any of the remaining prerequisite courses are in progress, type the exact course end date including month, day and year in the “Course Completion” column (ex: 3/15/2022).
APPENDIX F: Health and Safety Requirements

Due April 1, 2022

All Health and Safety Requirements will be submitted and verified online through CastleBranch, a background screening and compliance tracker. Information collected is secure, tamper-proof, and confidential. This service costs $30 and is a one-time fee to students. Students will be asked to create this account after they have been notified of provisional advancement or alternate status. Students are responsible for making sure that all documents have been uploaded and approved by CastleBranch by the specified deadline.

Vaccinations and Titers

A vaccination is an act of introducing a vaccine into the body to produce immunity to a specific disease. A quantitative titer is a blood test used to check the level of antibodies in the blood and measure the strength of a person’s immunity to a disease. Most can have a titer drawn from a primary care provider or ASU Health Services can help students complete these requirements.

Renewal:
- If CPR, Tdap, Fingerprint Clearance Card, or TB renewal date falls within January 1 - April 30, students must renew prior to December 20th.
- If CPR, Tdap, Fingerprint Clearance Card, or TB renewal date falls within May 1 - July 31, students must renew prior to April 20th.
- If CPR, Tdap, Fingerprint Clearance Card, or TB renewal date falls within August 1 - December 31, students must renew prior to July 20th.
APPENDIX F: Health and Safety Requirements (continued)

Measles (Rubeola), Mumps, and Rubella (MMR) Quantitative Titer
Students are required to submit quantitative titers for Measles (Rubeola), Mumps, and Rubella. The requirement for MMR may be met through one of the following:

1. If you have positive quantitative antibody titers for Measles, Mumps, and Rubella:
   a. Provide proof of titer lab results.

OR

2. If any of the quantitative titers are negative, nonreactive, or equivocal and you have documentation of a completed vaccination series that included 2 doses of the MMR vaccination administered at least 28 days apart after the first year of age and administered at least 28 days before the titer draw:
   a. Provide proof of titer lab results, proof of 2 MMR vaccinations, and Potential Exposure to MMR form. It is highly recommended a student receive a booster dose of MMR.

OR

3. If any of the quantitative titers are negative, nonreactive, or equivocal and you do not have documentation of a completed vaccination series that included 2 doses of the MMR vaccination administered at least 28 days apart after the first year of age:
   a. You must complete the vaccination series of 2 doses of MMR at least 28 days apart.
   b. Have titer(s) redrawn no sooner than 28 days after the 2nd MMR vaccination.
      i. If the second titer(s) is positive, provide proof of titer lab results.
      ii. If any of the second titers are still negative, nonreactive, or equivocal, provide proof of titer lab results, proof of 2 MMR vaccinations, and Potential Exposure to MMR form. It is highly recommended a student receive a booster dose of MMR.

Varicella (Chicken Pox) Quantitative Titer
Students are required to submit a quantitative titer for Varicella. History of chicken pox (Varicella) does not constitute immunity. The requirement for Varicella may be met through one of the following:

1. If you have a positive quantitative antibody titer for Varicella.
   a. Provide proof of titer lab results.

OR

2. If the quantitative titer is negative, nonreactive, or equivocal and you have documentation of a completed vaccination series that included 2 doses of the Varicella vaccination administered at least 28 days apart after the first year of age and administered at least 28 days before the titer draw:
   a. Provide proof of titer lab results, proof of 2 Varicella vaccinations, and Potential Exposure to Varicella form. It is highly recommended a student receive a booster dose of Varicella.

OR

3. If the quantitative titer is negative, nonreactive, or equivocal and you do not have documentation of a completed vaccination series that included 2 doses of the Varicella vaccination at least 28 days apart after the first year of age:
   a. You must complete the vaccination series of 2 doses of Varicella at least 28 days apart.
   b. Have titer redrawn no sooner than 28 days after the 2nd Varicella vaccination.
      i. If the second titer is positive, provide proof of titer lab results.
      ii. If the second titer is still negative, nonreactive, or equivocal, provide proof of titer lab results, proof of 2 Varicella vaccinations, and Potential Exposure to Varicella form. It is highly recommended a student receive a booster dose of Varicella.
Tetanus, Diphtheria, Pertussis (Tdap or Dtap) Vaccine
Students are required to provide proof of a tetanus, diphtheria, pertussis vaccination administered within the last ten years. A titer is not acceptable to fulfill this requirement. Students are required to keep this immunization current throughout the advancement process and while enrolled in the clinical nursing program.

Tuberculin Blood Test (TB) IGRA
Students are required to provide proof of negative Tuberculosis within the past 12 months. Students are required to keep this current throughout the advancement process and while enrolled in the clinical nursing program. The requirement for Tuberculosis may be met through one of the following:
1. Negative IGRA blood test within the past 12 months (lab report required).
   OR
2. If you have had a previous positive TB result (over 10 mm):
   a. A licensed healthcare provider must sign the Annual ASU TB Screening Questionnaire.

Important Note: A negative skin test or evidence of a clear chest x-ray will not meet this requirement.

Hepatitis B
Students are required to provide proof of Hepatitis B through one of the following:
1. Documentation of three Hepatitis B vaccinations (Engerix-B or Recombivax HB) that meet the minimum durations listed below.
   a. Dose 1
   b. Dose 2 – At least 4 weeks (28 days) after Dose 1
   c. Dose 3 – At least 8 weeks (56 days) between Doses 2 and 3 and at least 16 weeks (112 days) between Doses 1 and 3
   OR
2. Documentation of two Heplisav-B vaccinations that meet the minimum duration below.
   a. Dose 1
   b. Dose 2 – At least 4 weeks (28 days) after Dose 1
   OR
3. Positive antibody titer for Hepatitis B.

Influenza (Flu) Vaccine
Students will be required to provide proof of an influenza vaccine given within the 2022-2023 influenza season administered after August 1, 2022. Students are required to keep this vaccination current while enrolled in the clinical nursing program.

COVID-19 Vaccine
Students should complete the full series (1-2 doses depending on manufacturer) of the COVID-19 vaccine. While the COVID-19 vaccine is not currently required to be an ASU or Edson College student, we anticipate that most clinical placement agencies will require students to be vaccinated. If you are assigned to a clinical agency that requires the vaccine, you will need to have the vaccine completed to complete your clinical requirements.

Hepatitis A
For enhanced safety during clinical experiences, we recommend that students obtain a Hepatitis A immunization, but at this time it is not a requirement for the clinical nursing program.
APPENDIX F: Health and Safety Requirements (continued)

Arizona Level 1 Fingerprint Clearance Card

All ASU nursing students must possess a valid, unrestricted Arizona Level One Fingerprint Clearance Card from the State of Arizona to be advanced to and maintain enrollment in ASU’s clinical nursing programs. Students are required to keep this requirement current throughout the advancement process and when enrolled in the clinical nursing program. This is a multiple-step process and may take up to 6 weeks to complete. Applicants outside of Arizona may also obtain this clearance card and will request a mail-packet process in the steps below. Instructions below are subject to change, the critical information needed from ASU is provided in the bolded text below. Please contact the Arizona Department of Public Safety at 602-223-2279 for application help.

General steps for obtaining Arizona Level One Fingerprint Clearance Card

Begin the process at the following link: https://www.azdps.gov/services/public/fingerprint

On this webpage, click the links described below and follow these steps:

- Apply for a Card
- Apply for a Fingerprint Clearance Card
- Fingerprint Clearance Card – Continue
- Apply for a Card/Request a Replacement – Continue
- Create an account – fill out forms
- Check for confirmation email – Click link in email to confirm
- Login to account
- Select Non-IVP
- Review Privacy Act Statement – Continue
- Select reason for applying (scroll down to Additional Sponsors) – Select Health and Sciences Student and Clinical Assistant ARS § 15-1881 – Click Continue
- Fill in Applicant Information – Continue
- Employer Information:
  - Name: Salina Bednarek, Edson College of Nursing and Health Innovation
  - Address: 500 N. 3rd St. - HLTHN
  - City: Phoenix
  - State: AZ, Zip: 85004
  - Phone: 602-496-2244
- Fingerprinting Preference:
  - If you are physically present in AZ, choose Electronic
  - If you are physically present out of AZ, choose Mail
- Complete Signature Page – Continue
- Complete Signature Page – Continue
- Review application and continue to order
- Submit and Pay
- Emailed a link to your AZ PSP in-box with the 10-digit Reference Number and link to register for fingerprinting.
APPENDIX F: Health and Safety Requirements (continued)

If you chose the AZ/Electronic fingerprinting option you should receive information in your portal for Thanes-Gemalto sites to schedule your live scan. Read notifications in red first, then use the step by step guide for help on how to schedule fingerprinting appointment.

- Use your 10 digit reference number in the email to register for fingerprinting
- Verify all info from previous application
- Pay fingerprinting fee (typically $8)
- Registration receipt & Review the list of fingerprint locations

If you chose the out of AZ/Mail fingerprinting option you will be sent a fingerprint card to take locally for rolled, ink fingerprints, then you will send it back to AZDPS for processing. You must include your 10 digit reference number from the application process with your fingerprint card.

If you already have an active Arizona Level One Fingerprint Clearance Card

If you have already obtained an Arizona Level One Fingerprint Clearance Card using an institution other than Arizona State University, please contact Arizona Department of Public Safety at 602-223-2279 to request a change to the academic sponsor using the information located in the “Employer” section above.

Cardiopulmonary Resuscitation (CPR): BLS Provider

Students are required to provide and keep proof of a current American Heart Association Healthcare Professional BLS Provider Certificate. The blended learning option is acceptable but must include an in-person skills session. A 100% online CPR certification will not be accepted. Only BLS certification from American Heart Association will be accepted. Please use the link below to search for a local training center in your area.

<table>
<thead>
<tr>
<th>Name of Organization</th>

Health Insurance Coverage

Students will be prompted to provide proof of health insurance coverage to CastleBranch within a designated time period. Clinical sites require nursing students have health insurance coverage. Students can purchase private health insurance or enroll in ASU student health insurance. If there are changes to a student’s health insurance coverage while in the clinical nursing program, students must notify the Student Academic Services Office within 10 business days with the new information. The cost of health insurance is the student’s responsibility. Please visit the following link for additional information on ASU student health insurance:

eoss.asu.edu/healthcoverageoptions

Statement of Health Clearance

Students must have a healthcare professional sign a college-provided form verifying that they meet the requirements to perform the functions of a nursing student. The cost of the service to obtain a healthcare provider’s clearance is the student’s responsibility. The physical exam must be completed after December 1, 2021. If the provide does not have a stamp, a note must be included in that section that says, “I do not use a stamp in my practice”. To access to the form, please visit: [links.asu.edu/healthclearance](https://links.asu.edu/healthclearance)
APPENDIX F: Health and Safety Requirements (continued)

Drug and Alcohol Screening
Students will be prompted to order a drug and alcohol screen through CastleBranch within a designated time period. All results must come back negative. Students will have approximately a two-week period in which to provide their specimen. The cost of the drug and alcohol screen is the student’s responsibility.

Students who are currently on approved prescription or over-the-counter drugs that can result in a positive drug screen will need to work with the Medical Officer from CastleBranch if a test is failed. This allows a student to provide sufficient documentation for legal prescriptions. See Appendix H for additional details on which substances are screened during this process.

Additional Criminal Background Check
Students will be prompted to order a background check through CastleBranch within a designated time period. Students participating in clinical experiences must pass an extensive background check in addition to possessing a valid, unrestricted AZ fingerprint clearance card. The cost of the background check is the student’s responsibility. For more information on the background check, please see Appendix I.

Consent to Verify Personal Information to Clinical Agencies
Students will be asked to authorize the college to release health, immunization, and other information kept in their file or on CastleBranch to clinical placement agencies for students to participate in a clinical experience. While enrolled in the clinical nursing program, students must ensure all non-academic items stay current. Students may need to submit non-academic information and documentation directly to clinical placement agencies before they are eligible to participate in any college clinical experiences or practice related to course work. The college will provide students with plenty of notice when applicable. Inaccurate, incomplete, and/or outdated information regarding health status, immunizations, TB blood test, or CPR training may prohibit any student from participating in required clinical experiences.

Statement of Disclosure
The Edson College of Nursing and Health Innovation is committed to providing students with clinical learning environments that are conducive to their needs. In this form, students acknowledge that they may be at risk of known or unknown exposure to devices, equipment, or treatments that may be potentially harmful. The Edson College of Nursing and Health Innovation and Student Accessibility and Inclusive Learning Services, ASU’s disability resource center, are committed to working collaboratively with students to find appropriate clinical learning sites that minimize risk. However, due to the unpredictable environment in clinical agencies, it is not possible to guarantee no exposure to devices, equipment, or treatments that may be potentially harmful to students.
APPENDIX G: Fingerprint Clearance, Lawful Presence and Legal Limitations for Nurse Licensure

Lawful Presence
The college follows the Arizona State Board of Nursing policy regarding lawful presence in the United States. “On January 2, 2008, ARS 1-504 (HB2467) was implemented by the Board requiring ALL applicants to provide the Board with satisfactory documentation demonstrating the applicants’ citizenship, alien status, legal residency or lawful presence in the United States.”

Legal Limitations for Nursing Licensure
Legislation regarding the Board of Nursing (SB 1096) became law and was effective August 21, 1998. The law prohibits an individual convicted of a felony from applying for licensure or certification until five years after the date of absolute discharge of sentence. This means that all court-ordered terms of probation or parole must be completed at least five years prior to the date of application. If five years has not elapsed since the date of absolute discharge, the individual is not eligible to apply for licensure or certification and the application, if submitted, will be returned to the applicant. If five years or more has elapsed, the individual can apply for licensure or certification, however, each case will be considered by the Board on its own merits. The elapse of more than five years does not guarantee licensure or certification; it simply permits the submission and Board consideration of an application.

In addition, the Arizona State Board of Nursing can deny anyone for a license if the applicant has committed any acts of unprofessional conduct, such as those listed below. Contact the Arizona State Board of Nursing at 602-771-7800 with questions concerning licensure.

A. Committing fraud or deceit in obtaining, attempting to obtain, or renewing a license.
B. Aiding or abetting in a criminal abortion or attempted, agreed, or offered to procure or assist in a criminal abortion.
C. Any conduct or practice that is or might be harmful or dangerous to the health of a patient or the public.
D. Addiction to alcohol or other drugs.
E. Mentally incompetent or physically unsafe to a degree that is or might be harmful or dangerous to the health of a patient or the public.
F. Having a license to practice practical or professional nursing denied, suspended, or revoked in another jurisdiction and not reinstated by that jurisdiction.
G. Willfully or repeatedly violating a provision of this charter or a rule adopted pursuant to this chapter.
H. Committing fraud or deceit in obtaining or attempting to obtain a registered nurse practitioner certificate.
I. Committing an act that deceives, frauds, or harms the public.
J. Failing to comply with a stipulated agreement, consent agreement, or Board order.
K. Violating a rule adopted by the Board which relates to the practice of nursing.

Visit the Arizona State Board of Nursing website at http://www.azbn.gov/
APPENDIX H: Drug Screening Requirement

Students selected for the clinical nursing program must provide evidence of a negative drug and alcohol screen during the period identified by the Student Academic Services Office. Students are only allowed a two-week period in which to provide their specimen.

Students who refuse to comply with this requirement will forfeit their advancement status.

Students whose drug screen results are positive, and who do not submit data about prescription drugs that can result in a positive drug screen will forfeit their placement status to the clinical nursing program.

Inconclusive drug test results or drug test results below acceptable levels for creatinine and specific gravity indicate dilution of urine are subject to further investigation including, but not limited to, retesting at the student’s expense or assessment by a healthcare provider. Dilute or inconclusive results may result in forfeiture of the student’s placement status. The Prelicensure BSN Program Office will make the final determination.

The cost of the drug screen is approximately $75.00 and is the responsibility of the student. Payment must be made to CastleBranch. If a second drug screen is required, the cost of this second drug screen is also the student’s responsibility.

Additional laboratory test, and/or immunizations, or documentation can be required for clinical experiences by certain health care agencies.

Medicinal Marijuana and CBD

Among other substances, drug screens identify marijuana metabolites. Students with a positive drug screen resulting from medicinal marijuana or CBD use will forfeit their seat in the clinical nursing program.

The drug screen will include the following substances:

1. Alcohol
2. Amphetamine
3. Barbiturate
4. Benzodiazepine
5. Buprenorphine &/or metabolite
6. Butorphanol
7. Cocaine metabolites
8. Creatinine
9. Fentanyl
10. Ketamine
11. Ketamine metabolites
12. Marijuana metabolites
13. Meperidine
14. Meprobamate
15. Methadone
16. Methaqualone
17. Nalbuphine
18. Naltrexone
19. Naltrexone metabolites
20. Opiates
21. Oxycodone
22. Pentazocine
23. pH
24. Phencyclidine
25. Propoxyphene
26. Tramadol &/or metabolite
27. Zolpidem
APPENDIX I: Criminal Background Clearance Requirements

Students who are selected for advancement into the clinical nursing program are required to complete a Criminal Background Clearance to enroll in the Traditional BSN. The requirements for the clearance are:

- Students must pass the required background clearance obtained from ASU’s authorized vendor.
- Students are required to pay for the cost of obtaining the background clearance.
- Background clearances must be completed within two months before enrollment in a clinical or research program.
- Students will be required to pass an additional background clearance if they have a break in continuous enrollment in the clinical or research program.
- Students may be required to pass additional background clearances to meet the specific requirements of clinical or research agency partners.
- At all times during enrollment in a clinical or research program, students must maintain a passing disposition on all background clearances.
- Enrollment requirements related to background clearances are subject to change as mandated by clinical or research partners.

During the Background Clearance process students have a duty to provide updated information as requested by the background clearance vendor promptly. The following information may be requested by the background clearance vendor:

- Legal name, maiden name, and other names used
- Social Security number
- Date of birth
- Date of birth
- All places of residence
- Arrests, charges, or convictions of any criminal offenses, even if dismissed or expunged, including dates and details.
- Pending criminal charges that have been filed against you including dates and details. Participation in a first offender, deferred adjudication or pretrial diversion or other probation program or arrangement where judgment or conviction has been withheld.

The authorized ASU background clearance vendor will determine pass or fail status for each student based on the standards of Arizona State University and the Edson College of Nursing and Health Innovation.

The sole recourse of any student who fails the background clearance and believes that failure may have been in error is with the background clearance vendor and not ASU or the Edson College of Nursing and Health Innovation.

Students must disclose on all background clearance inquiries all required information including any arrests, convictions, or charges (even if the arrest, conviction, or charge has been dismissed or expunged), or participation in the first offender, deferred adjudication, pretrial diversion, or other probation programs. That includes any misdemeanors or felonies in Arizona, any other state, or other jurisdiction.

Failure to disclose relevant or required information on all background clearance inquiries will result in a violation of the ASU student code of conduct and may be subject to sanctions under that code.

Students will not be able to complete a clinical or research program if a clinical or research agency to which they have been assigned does not accept them based on the results of my background clearance.
APPENDIX I: Criminal Background Clearance Requirements (continued)

Arizona State University and the Edson College of Nursing and Health Innovation reserve the authority to determine eligibility to enroll in a clinical or research program, and that enrollment or background clearance requirements may change without notice.

Students have a duty to report to the Program Director within 3 business days, any arrests, convictions, or placement on exclusion databases.

The following databases will be searched for the required background clearance. Searchable information may include but is not limited to the following:

- Social Security verification
- Searches of all names and aliases
- Searches of all counties of residence
- Criminal history search including local state and county and nation
- National and local sex offender database search
- Motor vehicle records
- Professional licenses
- Government watch list
- FACIS
- Nationwide Federal Healthcare Fraud and Abuse Databases
- Health care sanction history (exclusions, termination of license, debarments)
  - Health and Human Services/Office of Inspector General (HHS/OIG)
  - List of Excluded Individuals/Entities (LEIE)
  - General Services Administration List of Contractors Excluded from Federal Procurement and Non Procurement Programs (GSA)
  - Excluded Parties List System (EPLS)
  - U.S. Food and Drug Administration Debarment List and Disqualified/Totally Restricted List for Clinical Investigators (FDA)
  - Drug Enforcement Administration (DEA)
  - Tri-Care (Military Health System)
  - Public Health Services (PHS)
- Homeland Security Search - 47 different National, International Terrorists and Fugitive Lists including
  - Office of Foreign Assets Control (OFAC) Specially Designated Nationals/Terrorist List
  - Specially Designated Nationals
  - U.S. Bureau of Industry and Security Denied Persons
  - Postal Inspection Service
  - Most Wanted Fugitives by U.S. Secret Service
  - U.S Immigration and Customs Enforcement (ICE)
  - Bureau of Alcohol, Tobacco and Firearms (ATF)
  - FBI
  - DEA

The criminal offenses for disqualification may include but are not limited to any or all of the following:

- Social Security Search - Social Security number does not belong to applicant.
- Any inclusion on any registered sex offender database.
- Any inclusion on any of the Federal exclusion lists or Homeland Security watch list.
Any conviction of felony no matter what the age of the conviction.
Any warrant in any state.
Any misdemeanor conviction for the following - No matter age of crime

<table>
<thead>
<tr>
<th>Violent crimes</th>
<th>Assault</th>
</tr>
</thead>
<tbody>
<tr>
<td>Murder, attempted murder</td>

Any crime against minors, children, vulnerable adults including abuse, neglect, exploitation
Sex crime of any kind including non-consensual sexual crimes and sexual assault
Any misdemeanor-controlled substance conviction within last 7 years.
Any other misdemeanor convictions within last 3 years.

Exceptions: Any misdemeanor traffic (DUI is not considered traffic)
APPENDIX J: Academic Responsibility and Advancement

Disclaimer

Students that are selected for the program will be asked to sign a Statement of Understanding regarding academic advising and graduation from the nursing program. In the statement, students will agree to the following terms:

- The academic advisement they receive from the ASU Edson College of Nursing and Health Innovation Student Academic Services Office is to assist students in their endeavors to obtain an education. It is the student’s responsibility to seek academic advisement for degree completion.
- It is the student’s responsibility to complete their college education and not the responsibility of academic advisors or members of the faculty.
- Admission to the Edson College of Nursing and Health Innovation does not guarantee graduation from the college with a BSN.
- Graduation from the college is not the sole criteria for obtaining a license to practice nursing in Arizona. Licensing requirements are the exclusive responsibility of the State Board of Nursing (Nursing Practice Act A.R.S. Sections 32-1632, et seq.),
- Students must satisfy requirements independently of completion of any requirements for graduation from the college to practice as a nurse.
APPENDIX K: Functional Expectations and Equal Access of the Undergraduate Nursing Student

As part of the advancement process, students are asked to read the "Functional Expectations of the Undergraduate Nursing Student". Once you are accepted into the program you will be asked to sign a copy of this statement indicating that you can and will perform the functions expected of you in the program.

Functional Expectations of Students
In collaboration with other health team members, nursing students work toward the goal of lifting the burden of the physical and emotional pain of those assigned to their care. To assist others in regaining health, students must attain and maintain their level of wellness.

Nursing students must have the ability to direct client care, engage in therapeutic communication and counseling, and function effectively in stressful situations. They must be able to communicate with faculty, clients and their families, healthcare professionals, and others. Therefore, they must demonstrate English speaking and writing skills as well as reading and listening comprehension before consideration for advancement to the Upper Division Nursing program.

Clinical Experiences and Requirements
There are many settings in which nursing students gain experience — hospitals, nursing homes, public health and community agencies, private homes, school settings, and clinics — and students are responsible for providing their own transportation to clinical locations. The terrain at the clinical sites will vary and students must be able to walk long distances and stand for many hours. In addition, clinical nursing experiences are active and complex and require that nursing students can simultaneously keep track of a large number of activities. Clinical experiences may be scheduled during the daytime, evening, nights, or on weekends and maybe for as long as 12-hour time periods.

Essential functions for clinical experiences include the use of all of the senses to gather information — the ability to see color changes in the skin, the ability to hear heart and lung sounds through a stethoscope, and to feel pulses and the temperature of skin. During clinical experiences, nursing students administer medication and direct client care so the needs of the clients must be placed first, over the nursing students’ own needs. Client care requires the ability to synthesize information from a variety of sources and apply it in making decisions regarding safe care. Nursing students must be focused and alert to maintain client safety and must be prepared to respond appropriately to medical emergencies.

Nursing students are expected to respect and care for persons whose appearance, condition, behaviors, and values may conflict with their own. Quality nursing care is to be provided regardless of the race, ethnicity, age, gender, religion, sexual orientation, or diagnosis of clients. Nursing students may be asked to participate in procedures that conflict with their own personal beliefs and values. They must conduct themselves in a composed, respectful manner in all situations and with all persons.

Nursing students will be responsible for client assessment and evaluation; planning client care and performing nursing care; reviewing client charts; developing individual nursing plans; implementing physicians’ orders; assessing the physical-psychosocial-cognitive-spiritual aspects of the client and client’s family; and communicating verbally, in writing and with a computer, with healthcare professionals, faculty, peers, and others.
APPENDIX K: Functional Expectations and Equal Access of the Undergraduate Nursing Student (continued)

Students must be able and willing to accept professional supervision from faculty and other supervisors and effectively integrate the feedback they receive into practice.

Client care will include:

a) Assisting clients with meals
b) Moving and positioning clients in bed
c) Assisting clients with walking, with and without mechanical devices
d) Lifting, transferring, and transporting clients using wheelchairs and stretchers
e) Administering medications
f) Providing direct client care such as catheterization, suctioning, bathing, toileting, dressing changes, other care
g) Educating clients and their families
h) Responding to emergencies
i) Supervising others in community based and clinical settings

Nursing Students must be able to:

See
Hear
Touch
Smell
Stoop/Bend
Squat
Climb
Kneel
Push
Pull
Lift
Grasp/handle
Reach: over shoulders, at waist level, and below waist level; stand, lift and walk for the duration of assigned clinical hours; physically negotiate around tables and chairs in clients’ rooms; stoop/bend/reach to retrieve supplies from storage areas; push and pull to operate medical equipment, administer medications, and manage other items for client care; lift clients with and without mechanical devices; and use their senses to assess clients and changes in their conditions.

Nursing students use many different kinds of equipment and supplies including computers, stethoscopes, blood pressure cuffs, IV poles, tubing and pumps, portable monitoring units, clamps and scissors, needles and syringes, client support bars, hospital beds, wheelchairs, stretchers, bed scales and traction units.

Equal Access of Students

The ASU Edson College of Nursing and Health Innovation is committed to making learning experiences accessible and inclusive for all students including those with an identified disability or disabling condition.

In compliance with the ASU policy on Students with Disabilities SSM 701-02, http://www.asu.edu/aad/manuals/ssm/ssm701-02.html, every effort will be made to accommodate students with special needs, to find cost effective methods to address the identified student condition, and serve the needs of the patients. These accommodations can include resources and assistive aids for those students with cognitive and perceptual disabilities, specialized equipment for hearing or vision deficits and modifications to the physical environment or clinical hours.

Students with disabilities are required to document their condition with Student Accessibility and Inclusive Learning Services (SAILS) upon admission to the college, and to be key participants in identifying their needs.
APPENDIX K: Functional Expectations and Equal Access of the Undergraduate Nursing Student (continued)

The college will provide reasonable and appropriate accommodations for all students who have documented a disability or disabling health condition.

Please contact SAILS at Arizona State University by phone (voice) at (480) 965-1234 or e-mail DRC@asu.edu to receive information regarding disability accommodations and documentation requirements. To ensure appropriate accommodations, it is the student’s responsibility to request accommodation in a timely manner and to provide appropriate documentation to verify eligibility for support services. eoss.asu.edu/drc
